The consolidated text of the Treasury BondSpot Poland Market Regulations includes in Annex P to the Treasury BondSpot Poland Market Regulations information on the promotions applied by BondSpot S.A. resulting from the relevant resolutions of the Management Board of BondSpot S.A., which do not constitute a part of the Regulations.

SECTION I - GENERAL PROVISIONS

Article 1 - Definitions

In these Market Rules, the following expressions have the following meanings:

- “Act” means the Act of 29 July 2005 on Trading in Financial Instruments (Journal of Laws of 2018, item 2286, as amended);
- “Algorithmic Trading” means the buying and selling of Traded Securities where a computer algorithm automatically determines individual parameters of buy or sell Orders for such Traded Securities, within the meaning of Article 4(1)(39) of Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (EU Legal Journal L 173 of 12.06.2014, p. 349, as amended), and taking into account Article 18 of Commission Delegated Regulation (EU) 2017/565;
- “Application” means the acceptance, whether whole or partial, of a Proposal, transmitted via the System and processed immediately by the System;
- “Mid-Price Application” means an Application inserted exclusively by a Market Maker on the Cash Market in the Mid-Price order book;
- “Benchmark Securities” means the Traded Securities specified by the Minister of Finance, especially those concerning fixed income Traded Securities with a maturity of no less than one year and a nominal value of no less than PLN 10 billion, or the Traded Securities being subject of a regular sale through tender proceedings whose value is PLN 2 billion or more;
- “Board” means the Management Board of the Company;
- “Clearing Institution” means KDPW_CCP S.A. in which transactions in treasury bonds concluded on the Market are cleared in accordance with Annex I;
- “Company” means BondSpot S.A.;
- “Custodian” means an entity by which the Participant settles its transactions in the Clearing Institution;
- “Institutional Investor” means the Participant entitled to conclude the transactions on the Market in accordance with article 10.3;
- “Issuer” means the Minister of Finance;
- “Issuer Agent” means the Participant indicated by the Issuer authorized to conclude the contracts on the Market on rules specified by the Company in consultation with the Issuer;
- “KNF” means the Polish Financial Supervision Authority;
- “Live Data” means information relating to Traded Securities in respect of which not more than 300 seconds have elapsed from the time;
- “Market” means an electronic market for state treasury securities, being an alternative trading system within the meaning of the Act of 29 July 2005 on Trading in Financial Instruments (consolidated text, Journal of Laws of 2017, item 1768, as amended) run by the Company under the name of Treasury BondSpot Poland, on which Securities are traded, pursuant to an agreement entered into between the Company and the Issuer;

“Market Committee”	means the institution mentioned in Article 35 of these Market Rules;
“Market Maker”	means a Participant entitled to conclude the transactions on the Market in accordance with article 10.2;
“Market Rules”	means these rules and other regulations resulting from these rules (with the annexes), related to the organization and operation of the Market, and any changes to the rules or annexes;
“Market Taker”	means a Participant entitled conclude the transactions on the Market in accordance with article 10.1;
“Member State”	means a Member State of the European Union;
“MMI”	means Major Market Incidents within the meaning of Annex H;
“Order”	means a Proposal, an Application or other binding order placed by a Participant on the Market in order to conclude a Transaction;
“Participant”	means entity admitted to trading on the Market;
“Price”	means the value representing the percentage of the nominal amount of the Traded Security payable in respect of sale of Treasury bonds, excluding accrued interest, and in case of Treasury bills means the annual rate of yield to maturity expressed as a percentage;
“Proposal”	means the double-side Proposal and one-side Proposal;
“double-side Proposal”	means the simultaneous offer to buy and sell for given Traded Securities, with specification of the quantity and the price quoted and the type of Traded Security that it intends to trade
“one-side Proposal”	means the offer to buy or sell, with specification of the quantity and the price quoted and the type of Traded Security that it intends to trade;
“Mid-Price Proposal”	means a one-side Proposal with additional maximum price limit for execution, inserted on the Cash Market in the Mid Price order book;
“Public Investor”	means the Participant entitled to conclude the transactions on the Market in accordance with article 10.4;
“Repo Proposal”	means an anonymous or non-anonymous one-side Proposal submitted on the repo market in order to execute a conditional transaction;
“RUR”	means the market Participants Committee, referred to in the Regulations on fulfilling the function of the Treasury Securities Dealer;
“Settlement Entity”	means the entity through which the Participant settles transactions at the Settlement Institution or clears transactions at the Clearing Institution;
“Settlement Institution”	means, respectively, the National Depository for Securities (<i>Krajowy Depozyt Papierów Wartościowych S.A - KDPW</i>), in which transactions in Treasury Bonds are settled, or the National Bank of Poland where transactions in Treasury Bills are settled;
“Spread”	means the difference between the buy price and sale price in double-side Proposal;
“System”	means the electronic trading system provided by MTS S.p.A., commissioned by the Company as a technology vendor and service provider, administered by the Company, for trading on the Market;

“Terminal”	means a technical device used to make Proposals and Applications, enter into transactions, display Live Data regarding Proposals, executed transactions, and other information connected with trading;
“Traded Securities”	means dematerialized state treasury securities, not subject to constraints in terms of their transferability, denominated in PLN or EUR, issued by Minister of Finance, offered on the primary market on auctions organized by the National Bank of Poland on behalf of the Issuer, as well as other treasury securities specified by the Issuer; classified according to their maturity, as specified in Annex A;
“Trading Hours”	means the hours of the Trading Day during which Traded Securities may be traded on the System as determined in Annex E;
“4BondNet”	means a closed internet service made available to Participants.

Article 2 – Market Rules

1. The object of the Market Rules is to determine in detail the organization and operation of the Market.
2. The Market Rules and Annexes to it, as well as any and all modifications and changes thereto, are adopted by the Management Board, after a relevant favourable opinion is forwarded by the Issuer.
3. Participants are required to accept the terms and conditions of the Market Rules and act accordingly.
4. Any and all modifications and changes to the Market Rules will be forwarded to the Participants by electronic mail, within at least 14 days prior to their entry into force.
5. The Company may shorten the term indicated in point 4 above if any of the Participants doesn't disagree with such shortage prior to it within the deadline set out and communicated by the Company from time to time, made available such information to the Participants by electronic notification.
6. The Board or the employee of the company authorized by the Board will take all decisions taken by the Company pursuant to these Market Rules unless specifically delegated under the conditions established in the by-laws of the Company.
7. All legal relations arising from the Rules will be governed by and construed in all respects in accordance with laws of Poland.

SECTION II - ADMISSION AND RESIGNATION

Article 3 - General conditions for admission to trading on the Market

1. European Union institutions and Non-European Union institutions, authorized to provide the services specified in Section A service envisaged in Section A of Annex I to Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/UE (Official Journal EU L 173 of 12.06.2014, p. 349, as amended), of the European Parliament and the Council of April 21, 2004, under the supervision of the supervisory authorities, may be admitted to trading on the Market, as Market Makers or Market Takers.
 - 1a. National Bank of Poland may be admitted to trading on the Market, as Market Maker or Market Taker.
2. The following entities may be admitted to operate on the Market as Institutional Investors:

- 1) the institutions referred to in point 1,
- 2) the insurance institutions within the meaning of the Act of 29 July 2005 on Trading in Financial Instruments (consolidated text, Journal of Laws of 2017, item 1768, as amended),
- 3) the investment funds and the investment fund companies as provided for in the Act of 27 May 2004 on Investment Funds and Management of Alternative Investment Funds (Journal of Laws of 2016, item 1896, as amended),
- 4) the institution functioning within the deposit guarantee schemes as provided for in the Directive 2014/49/UE of the European Parliament and of the Council of 16 April 2014, operating based upon the Act of 10 June 2016 on the Bank Guarantee Fund, Deposit Guarantee Scheme and Resolution (consolidated text, Journal of Laws of 2017, item 1937, as amended),
- 5) National Bank of Poland.

2a. Admitted to operate on the Market as a Public Investor may be the State Treasury acting through the competent public authority appointed to manage or participating in the management of public debt (Minister of Finance).

3. To be admitted to trading, the institutions and institutions referred to in points 1 to 2a are obliged to:
 - 1) have the necessary knowledge and experience and give a guarantee of proper and safe participation in trading on the Market;
 - 2) have the necessary trading capacity and competence;
 - 3) have the capacity for the clearing and settlement of trades on the Market according to Annex I;
 - 4) have adequate organizational and technical means that permit correct operation in the System and the performance of the contract execution obligations.
4. (Repealed).
5. (Repealed).
6. Additional admission conditions referred to in Article 4, Article 5 and Article 6 will not apply regarding the National Bank of Poland

Article 4 - Additional Admission Conditions for Market Takers

In addition to the conditions in Article 3, an institution that wishes to be admitted to trading on the Market as a Market Taker will have a net worth, as calculated by its respective regulatory instructions for supervisory purposes, of at least EUR 30 million or its equivalent.

Article 5 - Additional Admission Conditions for Market Makers

In addition to the conditions in Article 3, an institution that wishes to be admitted to trading on the Market as a Market Maker will have a net worth, as calculated by its respective regulatory instructions for supervisory purposes, of at least EUR 50 million or the equivalent, calculated according to proper regulations.

Article 6 – Additional Admission Conditions for Institutional Investors

In addition to the conditions in Article 3, an institution that wishes to be admitted to operation on the Market as an Institutional Investor will have:

- 1) in the case referred to in Article 3.2.1 and 3.2.2 - will have a net worth, as calculated by its respective regulatory instructions for supervisory purposes, of at least PLN 10 million or the equivalent;
- 2) in the case referred to in Article 3.2.3 - will have, within one year preceding the date of the application for admission to operation on the Market, net assets, as calculated by its respective regulatory instructions for supervisory purposes, of at least PLN 50 million, subject to point 3;
- 3) in the case of investment fund companies - will have a net worth, as calculated by its respective regulatory instructions for supervisory purposes, of at least PLN 10 million.

Article 7 – Market Admission Procedure

1. Admission to operation on the Market requires a resolution of the Management Board of the Company passed on written application of the entity, referred to in Article 3.1 to 3.2a, seeking admission to operation on the Market.
2. Application template for admission to operation on the Market and documents that need to be attached to the application are set out in Annex J. In any case, the applicant must submit a document demonstrating its capacity for the clearing and settlement of trades on the Market.
3. Applicants seeking admission to operation on the Market will immediately notify the Company of any change of data contained in the application for admission to operation on the Market and its attachments.
4. The Company may require applicants to provide documents and information other than referred to in point 2, necessary to pass a resolution concerning admission to operation on the Market.
5. The Management Board of the Company will review the application for admission to operation on the Market within 14 days of the date on which the applicant submits all necessary documents and information. The Management Board of the Company may, acting in communication with the applicant, review the application for admission to operation on the Market within a time limit longer than 14 days.
6. The Management Board of the Company will admit applicants to operation on the Market if the applicants meet the admission conditions referred to in the Market Rules.
7. In the event of admission to operation on the Market, the Company will immediately present the relevant resolution in writing to the applicant.
8. In the event of admission to operation on the Market, the Management Board of the Company will set the date on which the participant may begin trading on the Market. Such date should be no earlier than 7 days after the date of the resolution on admission of the Participant to operation on the Market. Participants may start trading on the Market provided that they meet the technical requirements of the System.
9. The Management Board of the Company may revoke a resolution on admission to operation on the Market if the operation on the Market does not begin within 3 months of the date of the resolution.
10. The Company keeps a list of Participants and publishes the list on the website of the Market.

Article 8 - Procedure for Dismissal of Applications for Admission to Operation on the Market

1. The Management Board of the Company dismiss an application for admission to operation on the Market, in case if the requirements are not fulfilled mentioned in the Market Rules or if the admission could threaten the proper functioning of the Market or may endanger for the safety of trading in Market.
2. If the Management Board of the Company finds grounds to pass a resolution dismissing an application for admission to operation on the Market, it should allow the applicant to speak on that matter before passing the resolution.
3. In the event of dismissal of an application for admission to operation on the Market, the Company should immediately present the justification to the applicant and immediately present the relevant copy of the resolution with the explanatory memorandum to the applicant.
4. Within 10 working days of the date of the receipt of a copy of the resolution, mentioned in the Article 3, the applicant may submit a written application of the review request. The request shall be considered to have been submitted at the date of the date of receipt of the application to the Company's Office.
5. The Management Board is obliged to examine an application for repeated examination immediately, not later than within 30 working days from the day of submitting it.
6. Where necessary to get additional information, time limit, mentioned in the Article 5, will start at the moment of sending further information.

Article 9 - Scope of Operation of Participants on the Market

1. Participants may operate on the Market only on their own behalf and for their own account, according to Article 10, within separate Market segments.

2. The separate Market segments are as follows:
 - 1) cash market, where unconditional sales are concluded according to Article 21 – 21c, Article 24 and Article 25,
 - 2) repo market, referred to in Article 26, where conditional trades are concluded,
 - 3) cash market institutional segment, referred to in Annex K.

Article 10 - Scope of Authorization to act on the Market

1. The Market Taker will be entitled to conclude transactions:
 - 1) on the Cash Market by introducing via the System the Applications;
 - 2) on the Repo Market on the basis of the provisions referred to in Article 26;
 - 3) on the basis of the provisions referred to in Article 27a and 27b.
2. The Market Maker will be entitled to conclude the transactions:
 - 1) on the Cash Market by introducing via the System the Proposals, the Applications;
 - 2) on the Repo Market on the basis of the provisions referred to in Article 26,
 - 3) in the Institutional Segment of the Cash Market by introducing via the System the Proposals and the Applications on the terms set out in Annex K,
 - 4) on the basis of the provisions referred to in Article 27a and 27b.
3. The Institutional Investor may be admitted to trading on the Cash Market, or on the Repo Market or in the Institutional Segment of the Cash Market. In the case of admission:
 - 1) on the Cash Market Institutional Investor is entitled to conclude transactions on the basis of the provisions referred to in Article 27a and 27b,
 - 2) on the Repo Market the Institutional Investor is entitled to conclude the transaction on the basis of in the provisions of Article 26,
 - 3) in the Institutional Segment of the Cash Market the Institutional Investor is entitled to conclude the transaction by introducing via System the Applications in compliance with Annex K.
4. The Public Investor is only entitled to conclude conditional transactions – classic repos on the repo market on the basis of the provisions of Article 27a and Article 27b.

Article 11 - Resignation of Participants

The Participant may resign from membership in the Market upon filing a written resignation declaration with the Company, subject to a 3-month notice period.

SECTION III - UNDERTAKINGS OF PARTICIPANTS

Article 12 - Undertakings of Participants

1. The Participant hereby undertakes to the Company:
 - 1) to notify the Company, without delay, of any interruption in trading due to a breakdown in the computer connection;
 - 2) to comply with the Market Rules, including the best market practices specified in Annex S hereto;
 - 3) to act with due diligence and honesty;
 - 4) to respect and comply with the established operating procedures for the System;
 - 5) to refrain from any act that may jeopardize the proper functioning of the System or trading on it;
 - 6) not to enter into trades other than for proper trading purposes;
 - 7) to be responsible for the acts and omissions of its employees and other persons employed by the Participant and ensure those assigned to its trading activities on the Market have the necessary knowledge and experience and are appropriately trained and, where required by the applicable regulations, hold the authorisation to carry out activities related to the placement of Orders and the conclusion of transactions;

- 8) not to disclose Live Data, save as may be required by a regulatory body or court having jurisdiction over the Participant;
 - 9) to ensure efficient and immediate co-operation with the Company, including provision of information, data or explanations, in the form and within the time limits determined by the Company, in order to meet the obligation laid down in Article 26(5) of Regulation (EU) 600/2014, and take full responsibility for the correctness of provided data and information in terms of both content and form;
 - 10) to pay not later than the due date all fees payable to the Company in the amount and on the terms specified in Annex P;
 - 11) to deal with the Company in an open and co-operative manner for ensuring fairness of the Market;
 - 12) to have and maintain in its home State all necessary regulatory authorizations, approvals and consents for trading on the Market;
 - 13) to notify the Company, without delay, of any material change to the information supplied in its application to the Company for admission to the Market;
 - 14) notwithstanding suspension, exclusion or resignation, to comply with any requirements of the Board with regard to the execution of any outstanding contract entered into by it on the Market;
 - 15) to safeguard all information, data and documents relating to its operation on the Market, including those relating to the System and System access passwords and not to allow unauthorized access to the System;
 - 16) to conclude contracts with each Participant, subject to transactions effected on the basis of the provisions referred to in Article 27a and 27b and Repo Proposals;
 - 17) to respect and accept the outcome of those checks referred to in Article 15a and Article 34 of the Market Rules;
 - 18) to ensure resilience and performance of information and communication technology equipment and systems to the extent of the scale of operation on the Market;
 - 19) to ensure continuous operation and performance of information and communication technology equipment and systems used in the operation on the Market;
 - 20) to perform conformance testing referred to in Article 9 of Delegated Regulation (EU) 2017/584, including at the request of the Company;
 - 21) to prevent any adverse impact of information and communication technology equipment and systems on efficient and safe trading in Traded Securities on the Market, in particular the sending of incorrect Orders;
 - 22) to examine Orders and own executed transactions against potential manipulation of prices of Traded Securities and to prevent the use of information and communication technology equipment and systems in breach of Regulation (EU) 596/2014 of the European Parliament and of the Council;
 - 23) to clear and settle its trades according to Annex I.
2. In the case of Orders placed in Algorithmic Trading, Participants shall, without prejudice to the application of the provisions of point 1, additionally comply with the requirements applicable to Algorithmic Trading, including in particular:
- 1) to confirm, in the form determined by the Company, before the implementation or any significant upgrade of the algorithm, that the algorithm to be implemented or upgraded has been tested in order to avoid its contributing to disorderly trading;
 - 2) to develop, implement and apply the rules and procedures and the control measures and mechanisms laid down in Article 1 – 18 of Commission Delegated Regulation (EU) 2017/589.

Article 13 - Additional Undertakings of Market Takers

1. In addition to the undertakings referred to in Article 12, the Market Taker will undertake to the Company:
 - a. to ensure continuing fulfilment of the conditions referred to in Articles 3 and 4;

- b. to demonstrate of any data, information or documents useful to confirm that the Market Taker fulfils the conditions referred to in Articles 3 and 4. including certifications from auditing companies, at the request of the Company
- c. to notify the Company immediately in case of breach of any of the conditions referred to in point (a) hereinabove and Article 12.

2. (repealed)

Article 14 - Additional Undertakings of Market Makers

1. In addition to the undertakings referred to in Article 12, and referred in point 2 each Market Maker will undertake to the Company:
 - a. to ensure continuing fulfilment of the conditions referred to in Articles 3 and 5 and in Annex G;
 - b. to make double-side Proposals on the Cash Market in relation to all Benchmark Securities complying with requirements stipulated in Annex G, provided that this obligation will not apply to Market Maker in the performance of its duties as Issuer's Agent;
 - c. to demonstrate any data, information or documents useful to confirm that the Market Maker fulfils the conditions referred to in Articles 3 and 5, including certifications from auditing companies, at the request of the Company;
 - d. to notify the Company immediately in case of breach of any of the conditions referred to in points (a) and (b) hereinabove and Article 12.
2. The Board may, on the application of a Market Maker, agree to a temporary suspension of the undertaking in point 1(b) hereinabove.

(repealed)

Article 15 - Additional undertakings of Institutional Investors and Public Investors

1. In addition to the undertakings referred to in Article 12, each Institutional Investor will undertake to the Company:
 - a. to ensure continuing fulfilment of the conditions referred to in Articles 3 and 6;
 - b. to demonstrate of any data, information or documents useful to confirm that the Institutional Investor fulfils the conditions referred to in Articles 3 and 6, including certifications from auditing companies, at the request of the Company;
 - c. to notify the Company immediately in case of breach of any of the conditions referred to in point (a) above and Article 12.
2. Subject to the obligations set out in Article 12, Public Investors will undertake to the Company:
 - a. to ensure continuing fulfilment of the conditions referred to in Article 3 point 3;
 - b. to demonstrate any data, information or documents useful to confirm that the Public Investor fulfils the conditions referred to in Articles 3 point 3;
 - c. to notify the Company immediately in case of breach of any of the conditions referred to in point (a) above and Article 12 immediately after obtaining such information.

Article 15a – Assessment of the operation of Participants

1. The Company assesses the operation of Participants to the extent of trading on the Market and the terms and conditions of access to the System, including to the extent and on the terms and conditions laid down in Article 7 of Commission Delegated Regulation (EU) 2017/584.
2. In order to perform the assessment referred to in point 1, the Company may require Participants to provide information, declarations and documents.

SECTION IV - TRADING

Article 16 – General System Operations

1. The Company will undertake any and all actions which will prove necessary for the proper functioning of the Market.
2. The Company will provide the Participants with any and all information on functioning of the System and technical requirements that must be fulfilled in order to use the System.
3. The Company will make immediately available to Participants information about any of the Company's actions that affect the operation of the System.
4. The Company may adopt trading and settlement practices in order to provide proper operation of the Market.

Article 17 – Trading Hours and Days, Deferment of Market Operations and Market Ban

1. Market trading takes place on the sessions on Trading Days, set forth in Annex F and during Trading Hours, set forth in Annex E.
2. In the events where trading safety is threatened, the Company may delay, suspend or withhold the trading in respect of the entire Market, its part or in relation to singular types or categories of Traded Securities.
3. In reasonable circumstances, the Company may change Trading Hours or cancel trading on a specific Trading Day.
4. The Company will promptly provide the Polish Financial Supervision Authority (KNF), the Issuer, the Clearing Institution, the Settlement Institution and the Participants with the information about changed Trading Hours, and it will promptly make relevant public announcements, as well as about trading cancelled on a specific Trading Day and recommencing Market Trading.

Article 18 – Traded Securities

1. All Traded Securities will be authorised for trading, unless the Company determines otherwise.
 - 1a. the Company will indicate the date to commence trading in SPW on the Market.
 - 1b. In circumstances determined by laws and regulations, the Company will withhold the commencing of the trading in the specified Traded Securities on the Market, for the timeframe not to exceed 10 days. The relevant information is promptly publicly announced.
2. The minimum trading quantities and the trading quantities for each Traded Security are determined in Annex C.
3. For the purposes of organising trading and ensuring the clearing and settlement of transactions, the Company calculates and makes available to the Participants data containing the value of accrued interest for each day of the interest period to the extent and in accordance with the rules set out in Annex D.

Article 19 – Suspension and de-selection of Traded Securities

1. The Company may suspend a Traded Security:
 - 1) upon a request duly made by the Issuer,

- 2) if it considers that such suspension is required due to Market security or Participants' interest, including:
 - a) if normal market conditions no longer occur with respect to Traded Securities;
 - b) if an MMI occurs.
- 1a. The Company may also decide on suspension of Traded Securities, upon the Participant's prior reasonable request to do so.
- 1b. In the circumstances determined by laws and regulations, the Company will suspend Traded Securities for the timeframe specified therein or determined by a competent authority.
2. The Company may lift suspension of the Traded Security if the cause of the suspension no longer applies.
3. It is agreed that the last day of trading in the Traded Security on the Market is, in case of:
 - 1) treasury bonds – two business days prior to the settlement date (as defined in par. 79.2.1/ of the National Depository for Securities Rules) of the buyback transactions;
 - 2) treasury bills - the fourth business day preceding the buyback date.
4. If specific Traded Securities are suspended for at least 6 months, the Company may, upon consultation with the Issuer, withdraw the Traded Security from trading, subject to points 5 and 6.
5. The Company may withdraw the Traded Securities from trading on the Market:
 - 1) upon a request duly made by the Issuer,
 - 2) should it consider it required for Market security or Participants' interest.
6. The Company will withdraw the Traded Securities from trading on the Market:
 - 1) in circumstances determined by laws and regulations,
 - 2) if marketability of the Traded Security is limited,
 - 3) in case of cancellation of dematerialisation of the Traded Securities.
7. The information about the trading suspension, trading recommencing or withdrawal of the Traded Securities from trading on the Market, as well as about withholding their trading on the Market will be promptly published in compliance with the procedure specified in the Act of 29 July 2005 on Trading in Financial Instruments (consolidated text, Journal of Laws of 2017, item 1768, as amended) and the Commission Implementing Regulation (EU) 2017/1005.
8. The Company will promptly provide the Polish Financial Supervision Authority, the Issuer, the Clearing Institution and the Settlement Institution with the information on the suspension of trading, trading recommencing or withdrawal from trading.

Article 20 (repealed)

Article 21 – Proposals Placed on the Cash Market

1. Proposals can be submitted on the Market only by the Market Maker.
2. Proposals will accordingly satisfy the requirements set forth in Annex C or Annex G.
3. The Market Maker can change valid Proposals at any time, and their availability can be suspended on the Market, and for one-side Proposals, they can be removed.
4. The Market Maker may enter into the System to both buy and sell Proposals for all Traded Securities on the Market prior to the start of the Trading Hours, within the timeframe as defined in Annex E, with reservation that these Proposals are not to be displayed to other Participants until the start of the Trading Hours.
5. The maximum spread applies to double-side Proposals concerning Benchmark Securities and will be set by the Company upon agreeing with the Issuer.

6. The Market Maker may submit in the System Proposals with a Price limit containing a reservation, according to which part of the Proposal is subject to disclosure in the order book on the cash market. In this case, part of the Proposal not disclosed in the order book is stored in the order management subsystem until the partial or complete execution of the disclosed part.
7. The Proposal referred to in Section 6 is in accordance with Article 4 (2) (a) of the Commission Delegated Regulation (EU) 2017/583, however, the minimum size of this Proposal is greater, at the time of its submission or as a result of any change thereof, than the size of the minimum trading unit specified in Annex C.
8. The undisclosed part of the Proposal referred to in Section 6 may be executed after its disclosure in the order book as a new disclosed Proposal that meets the requirements regarding Proposals set out in the Regulations.

Article 21a – Traded Security Price Volatility Thresholds

1. The Cash Market is governed by the thresholds of Traded Security price volatility. Determining a Traded Security price volatility threshold is aimed at managing fluctuations and rejecting Proposals which are evidently inaccurate.
2. The Company calibrates automated mechanisms of setting a price volatility threshold, taking into consideration liquidity of a specific Traded Security on the Market.
3. The Company monitors the accuracy of the Proposals placed on the Cash Market. In case of untypical volatility, the Company may calibrate price volatility threshold setting mechanisms.
4. Placing the Proposal on the Trading Day for the price that exceeds the value of the price volatility thresholds determined by the Company will result in the Proposal rejection.

Article 21b – Volume Thresholds

1. The Cash Market is governed by the thresholds of acceptable volumes of Proposals placed on the Market. Determining the acceptable volume thresholds in respect of the Proposals placed on the Market is aimed at managing fluctuations and rejecting the Offers which are evidently inaccurate.
2. The Company calibrates automated mechanisms of setting an acceptable volume threshold, taking into consideration liquidity of a specific Traded Security.
3. The Proposal Volume will not exceed values calibrated by the Company.
4. Placing the Proposal on the Trading Day, the volume of which exceed an acceptable value, will result in the Proposal rejection.

Article 21c – Automatic Suspension of Trading in Traded Securities (Circuit Breakers)

1. Automatic suspension of trading in Traded Securities (circuit breakers) is used on the cash market in the event of large volatility of prices.
2. The Company calibrates circuit breakers taking into account liquidity of a Traded Security on the Market.
3. If new issue Traded Securities are introduced to trading on the Market, the Company performs the calibration referred to in point 2 taking into account the calibration methods of similar Traded Securities which are traded on the Market and the maturity of the new issue Traded Securities.
4. Circuit breakers suspend trading in Traded Securities for a specific period of time if a transaction is executed at a Price that is different from the relevant reference price by a percentage exceeding a limit set in the calibration referred to in point 2.
5. In order to manage large volatilities of prices on the cash market, the Company may:
 - 1) reopen suspended trading in a Traded Security at any time;
 - 2) modify the calibration referred to in point 2 and 3 during the Trading Day, effective immediately.
6. The Company notifies the Participants, the Issuer, KNF and the general public of any suspension of trading in Traded Securities and of the period of suspension of trading in Traded Securities.
7. If an Order is placed for a Traded Security during a suspension, the Order will be rejected.

Article 21d – Market Access Restrictions

1. The Company may restrict Participant access to the Market:
 - 1) if required by the safety of trading or the interest of Participants, including:
 - a) if normal market conditions no longer occur with respect to Traded Securities;
 - b) if an MMI occurs;
 - 2) if necessary to ensure the legally compliant performance of obligations of the Company or Participants related to trading in Traded Securities on the Market.
2. In order to restrict Market access, the Company may in particular:
 - a. temporarily limit or stop the placement of Orders of a specific type or all Orders;
 - b. apply mechanisms which restrict the number of Orders per second per Participant accepted in the System;
 - c. cancel Orders which have been placed but not executed.

Article 21e – Placing Orders on the Market

1. The Order will specifically contain:
 - 1) a Traded Security code,
 - 2) a type of Order – buy or sell,
 - 3) the total and the disclosed Traded Security volume (Traded Security quantity),
 - 4) a price and a repo rate for the Order placed on the repo market,
 - 5) a date and time of placing Order on the Market,
 - 6) a Participant,
 - 7) designation of a private individual or an algorithm as responsible for making an investment decision with regard to a specific Order, as agreed in compliance with Article 8 of the Commission Delegated Regulation (EU) 2017/590,
 - 8) designation of a private individual or an algorithm as responsible for executing a specific Order, as determined in compliance with Article 9 of the Commission Delegated Regulation (EU) 2017/590.
2. The designations referred to in points 1.7 and 1.8 are encrypted in the Order. The relevant data, including personal data specified in points 4 and 5 Table 2 in Annex to the Commission Delegated Regulation (EU) 2017/580, are delivered to the Company by the Participant, subject to the requirements set forth in applicable laws and regulations, specifically regulations on the protection of personal data.
3. The personal data referred to in point 2 may be used only by the Company to fulfil its obligations referred to in Articles 25.2 and 26.5 of the Regulation No 600/2014 of the European Parliament and of the Council and obligations referred to in the Commission Delegated Regulation (EU) 2016/957.
4. The designations referred to in points 1.7 and 1.8 are delivered to the Market in the Order in the form of short codes with long codes assigned thereto, which constitutes the data, including personal data provided for in points 4 and 5 Table 2 in Annex to the Commission Delegated Regulation (EU) 2017/580.
5. The Participant will assign short codes to private individuals and algorithms responsible for performing the activities referred to in points 1.7 and 1.8 under the terms and conditions determined by the Company.
6. The short code will be unique in terms of activities performed by a specific Participant and assigned to a specific long code. The components of a short code will not reveal identity of persons they refer to.
7. The Participant may assign short codes to a specific private individual or algorithm, as provided for in point 5, with reservation that these codes will be assigned to the role or function provided for in points 1.7 and 1.8, or it may assign a short code to a specific person or a specific algorithm to act in all these roles and functions. Irrespective of the number of short codes assigned to a specific entity, it has only one long code.
8. In order to perform the obligations referred to in Article 25 and Article 26(5) of Regulation (EU) No 600/2014 of the European Parliament and of the Council, after receiving long codes, the Company allocates them to short codes in the Order and subsequently:
 - 1) prepares and maintains details of an Order in accordance with the scope, standard and format laid down in Commission Delegated Regulation (EU) 2017/580;

- 2) reports trades of Participants not subject to the obligations under Regulation (EU) No 600/2014 of the European Parliament and of the Council in accordance with the scope, standard and format laid down in Commission Delegated Regulation (EU) 2017/590.

SECTION V - CONTRACTS

Article 22 - Parties to transactions

1. Parties to transactions concluded on the Market are Participants and, in cases defined in Annex I, also the Clearing Institution.
2. Transactions are concluded on the basis of Orders entered by Participants in the System.

Article 23 – Types of Contracts

Cash Market transactions and conditional (repo) transactions can be executed on the Market.

Article 24 – Execution of Cash Market Transactions

1. Contracts are concluded by the matching, according to procedures laid down by the Company in Article 25, of a Proposal and an Application or of two Proposals. The contract will be deemed to be concluded at the time when the System displays on the screen the matching of a Proposal and an Application or of two Proposals, except for point 1b.
 - 1a. (repealed)
 - 1b. Mid-Price transactions are concluded by matching Mid-Price Proposal and Mid Price Application or two Mid Price Proposals inserted in the Mid-Price order book.
2. A Proposal that has received a partial Application will be considered an effective Proposal for the residual portion, retaining the time priority originally assigned to it, in conformity with the rules established by Article 25.
3. (repealed).
4. In the case referred to in § 21 Section 6, the transaction is concluded by matching the disclosed part of the Proposals with other Orders in accordance with the principles set out in Section 1, however, in the case of partial implementation of the disclosed part of the Proposal, it is subject to updating to the size defined by the Market Maker, and the time of its submission is in conformity with the time of its amendment.

Article 25 – Procedure for Executing Cash Market Transactions

1. Applications are made by indicating the quantity and the "exclusion price". The "exclusion price" indicates the price up to which the best conditions exist for the Participant which sends the Application and hence the price up to which it is willing to execute the contract. The Application is carried out automatically up to the "exclusion price" (included).
2. With the limit of the "exclusion price" standing firm, the matching of a Proposal with an Application which results in the conclusion of a contract, occurs, until the desired nominal value is reached, according to the following criteria:
 - a) firstly the "Best Price" of the moment is applied;
 - b) should there be more Proposals for the "Best Price" of the moment, then the matching occurs according to when the proposals were inserted, starting from the least recent to the most recent;

- c) if applying the above mentioned criteria the entire quantity of the application is not fulfilled, then the closest price to the “Best Price” is applied. Provisions referred to in points a) and b) will apply accordingly.
3. The provisions contained in the preceding point are also applicable the conclusion of contracts by matching two Proposals.
- 3a. (repealed).
4. It is at the Market Makers’ discretion whether or not to accept Applications that are less than minimum trading quantity set for applicable type of Traded Security, according to the requirements specified in Annex C.
5. Mid-Price transaction is executed at the Mid-Price equal to the arithmetic of the best visible buy and sell price on the Market taking into account the following additional system conditions:
 - 1) minimum depth of the Market for a given Traded Security (minimum number of price levels),
 - 2) minimum time of Price stability on the Market,
 - 3) number of price levels which should be taken into account in the calculation,
 - 4) maximum level of spread between the buy and the sell.
9. (repealed).
10. (repealed).

Article 26 – Conditional (repo) Transactions

1. The conditional transactions, i.e. classic repos and buy/sell back, can be executed on the Market through Participants’ placing, via the System, Repo Proposals and Applications and on the basis of the provisions referred to in Article 27a and 27b.
2. The detailed principles to execute conditional transactions are described in Annex R.

Article 27– Transaction Registration Procedure

1. All transactions are immediately registered and confirmed to the Participants in an electronic form. For each separate contract, the following information will be recorded:
 - a. identification number;
 - b. code of the Traded Securities;
 - c. type of contract;
 - d. price;
 - e. volume of contracts;
 - f. time of executing the contract;
 - g. settlement and clearing date;
 - h. contracting parties.
 - i. the data referred to in Articles 21e.1.7 and 21e.1.8.
2. If the Participant is unable to verify via the Terminal the contracts it executed via the System, the procedure set out in Annex N will apply.

Article 27a. - Trade Registration Facility

1. Participants may not agree transactions on a preliminary basis unless in cases defined in Article 27a and 27b.
2. Bilaterally negotiated transactions are deemed to be concluded on the Market if they are reported and registered by Participants in the System.
3. The report referred to in point 2 is made when both parties to the transaction place matching Orders.

4. The registration of transactions is conditional on their conformity to the appropriate parameters defined in Annex C.

Article 27b. - Conditions of Registration in the Trade Registration Facility

1. Transactions referred to in Article 27a may be registered if at least one party to the transaction is a Market Maker and the transaction concerns Traded Securities which are traded on the Market, not suspended and not subject to circuit breakers referred to in Article 21c.
2. Transactions may be registered in the System on the basis of:
 - 1) terms of the transaction independently proposed and agreed directly by Participants via the dedicated functionality of the System and subsequently registered in the System as a transaction concluded on the Market, or
 - 2) a dedicated functionality of the System which enables Participants to agree the terms of a transaction on the basis of the best quote of the Market Maker on the Market at the time when the Participant initiating the negotiation of the terms of the transaction submits the application.
3. In the case referred to in point 2, a Market Maker may accept or reject the application of another Participant to negotiate the terms of a transaction.
4. A transaction referred to in Article 27a may be concluded on the cash market or on the repo market provided that both parties confirm the conclusion of the transaction within 120 seconds, starting with the submission of an application by the Participant initiating the negotiation of the terms of the transaction.

Article 28 – Transaction Settlement and Clearing

The transactions executed on the Market are cleared and settled according to Annex I.

Article 29 – Cancellation and correction of transactions

The cancellation and correction of transactions will be carried out by the Company according to the procedure described in Annex O.

Article 30 – Governing Law

All the transactions executed on the Market are governed by laws and regulations in force in the Republic of Poland and the provisions of these Market Rules.

SECTION VI - INFORMATION

Article 30a – General Provisions

1. Any reference in these Rules to “making information public” will mean its publication on the Market’s website, unless applicable regulations or the Rules provide for another method of publication of information.
2. Any reference in these Rules to “delivery of information to the Participant or Participants” will mean delivery of information, using, unless the Rules specify otherwise, a relevant communication method indicated by the Company.

Article 31 – Delivery of Information to Participants

1. The Company will deliver to the Participants such information as it deems necessary for the purpose of appropriate performance of trading activities and for the execution of the transactions on the Market.
2. For each Traded Security traded on the Market, the Company will deliver to each Participant admitted to the respective Segment, in real time via the System, the following information on the current day's operations:

- a. price and quantity of the best buy and sell Proposals;
 - b. price, quantity, and time of the most recently concluded contracts;
 - c. low, high, and volume weighted average price, plus volume exchanged of the contracts concluded during a period of System operation, not longer than two hours;
 - d. for each Participant, the itemized list of all the contracts it has concluded.
3. For each Traded Security traded on the Market, the Company will make available to each Market Maker, in real time via the System, the following information on the current day's operations:
- a. all the Proposals such Market Maker has placed into the System, including price and quantity;
 - b. the current status of all the Proposals such Market Maker has entered.
4. The Company will provide the Participant with the following tables:
- a. via the System a daily updated complete table of the identification codes of each Traded Security, including the settlement date for concluded contracts;
 - b. a table with identification codes of all Participants, with indication of the Participants clearing through the Clearing Institution.
5. (repealed).
6. (repealed).
7. (repealed).
8. Registration data of each Participant will be available for other Participants. The Company will publish the information about admission of a new Participant to trading on the Market and provide other Participants with its registration data.
9. The Company can provide the Participant with periodical statistical data of its activity on the Market.

Article 31a – Pre- and Post-trade Transparency Requirements

1. The Company publishes information concerning Prices in Proposals and transactions concluded on the Market, in informational services, in the form of statistics and current data, within the scope and time limits defined in Annex M.
2. At the end of each Trading Day the Company will make public a list, drafted in accordance with Annex M, that reports, for each Traded Security traded on the Market, at least the day's low, high, and weighted average price and total volume exchanged, calculated with reference to the contracts concluded in the entire day. The Company may specify the cases in which, for the purposes of calculation, the proposals and transactions considered anomalous are not taken into account.

Article 31b – Fixing Prices

On each Trading Day, fixing prices of Traded Securities are set. Time and rules of fixing prices' setting, as well as the manner of their publication, are set forth in The Rules of State Treasury Securities Fixing, published by the National Bank of Poland, upon consultation with the Issuer.

Article 31c –Transaction Execution Quality Reports

The Company publishes quarterly reports of the execution quality of transactions concluded on the Market on the terms and conditions laid down in Commission Delegated Regulation (EU) 2017/575.

Article 32 – Lists of Securities

The Company publishes and provides the Participants, via the System, with the list of Traded Securities traded on the Market, with indication of the Benchmark Securities and the Traded Securities eligible for fixing procedure.

Article 33 – Supervision Information

1. The Company can deliver the data concerning the Participants and transactions executed thereby to the institutions that supervise proper operations of the Market.
2. The Company can deliver the data concerning the Participants and transactions executed thereby to the institutions that administer the System, as necessary for its proper functioning; in such circumstances, the Company will ensure that such institutions will keep this information confidential.
3. The Company delivers the data and the information about the executed transactions and Participants' activity on the Market to the Issuer.

SECTION VII - MARKET SUPERVISION

Article 34 – Control of Regular Course of Trading

1. The Company supervises and is entitled to control the Participants on their activity on the Market during Trading Hours and compliance of such activity with the Market Rules.
2. During the supervision activities referred to in point 1 hereinabove, the Company can collect, process and deliver the information about the Participants, and the transactions executed thereby, in compliance with the Rules, in order to ensure Market safety.
3. The Company will regularly monitor the placed Orders and the transactions executed on the Market in order to identify violations of the Market Rules, cases of breach of trading regulations, cases justifying the suspicion of manipulation or usage of the Confidential Information, as well as disruption of Market operations.
4. The Company will promptly inform the Polish Financial Supervision Authority and the Issuer about each case justifying the suspicion of manipulation on the Market or using the Confidential Information, in compliance with the Commission Delegated Regulation (EU) 2016/957 and Article 81 of the Commission Delegated Regulation (EU) 2017/565 and Section A Annex III to the Regulation.
5. The Company will promptly inform the Polish Financial Supervision Authority and the Issuer about each case justifying the suspicion of manipulation on the Market or use of the Confidential Information, in compliance with the Commission Delegated Regulation (EU) 2016/957 and Article 82 of the Commission Delegated Regulation (EU) 2017/565 and Section B Annex III to the Regulation.

Article 35 – Market Committee

1. The Market Committee is appointed by RUR for a one year renewable term of office. RUR will establish the Market Rules for the Market Committee wherein the operating rules of the Market Committee will be described, including composition, selection and election of candidates. RUR will in any case ensure that the Market Committee's members are selected from independent individuals possessing expertise and experience regarding the functioning of financial instrument markets. The Board will provide the Market Committee with all information and assistance necessary to correctly perform its obligations.
2. The Market Committee will make decisions by a majority of the votes cast by its members. A Market Committee member acting as a representative of the Participant or linked with the Participant will not be involved when decisions are made or matters are considered with

reference to the conduct of a given Participant and therefore the member is required not to participate in such matters.

3. Tasks of the Committee Market will include in particular:
 - 1) (repealed),
 - 2) issuing opinions on events referred to in Article 36.5,
 - 3) (repealed),
 - 4) taking actions referred to in point 9 of Annex K,
 - 5) preparing a catalogue of incidents or criteria for estimation of incidents referred to in section I point 3.2 and section I point 6.4 of Annex O.
4. The Market Committee will be informed by the Board of the level of compliance of the Market Makers with the obligations referred to in Article 14.1 (b) hereof.

Article 36 – Procedural penalties clause

1. In the event of breach or suspected breach of the Market Rules, trading regulations or good market practice and reasonable suspicion of manipulation or insider trading, the Company will carry out an investigation in order to establish the facts of case as well as the scope and circumstances of the breach of the Market Rules, if any, and it will be entitled to request the Participant to cease the breach or to provide explanations within an appropriate time limit, subject to point 2.
2. Due to circumstances referred to in point 1 hereinabove in case of a gross breach or a breach which might disrupt proper operation of the System, the Company may will suspend the Participant forthwith, however, for a maximum period of 20 Trading Days. The Company will immediately inform the Participant of suspension and reasons therefor.
3. The time limit referred to in point 1 will be 7 days at minimum as from the date when the Participant receives the Company's request, unless the risk to the safety of trading on the Market due to the Participant's actions is so high that it should be eliminated without delay.
4. Given the circumstances proving the occurrence of manipulation or insider trading, following the investigation, the Company will proceed in compliance with Article 34.5.
5. If there are any doubts as to whether the Participant's conduct can be considered a breach of the Market Rules, trading regulations or good market practice and reasonable suspicion of manipulation or insider trading, the Company may request the Market Committee to issue an opinion on whether such incident should be considered a breach. The Company may request the Market Committee to issue an opinion where the Company intends to impose a penalty referred to in point 7. When submitting the request to the Market Committee, the Company will not disclose the identification data of the Participant involved.
6. In the event that the Company reports that the Participated has committed a breach of trading regulations or good market practice, the Company may will impose on the Participant one of the procedural penalties referred to in point 7 or otherwise to discontinue the proceedings. When imposing the penalty, the Company will use non-discrimination criteria and take into account the gravity and consequences of the breach as well as whether the relevant Participant's action or omission was intentional or non-intentional.
7. The Company may:
 - 1) give a warning to the Participant – in the event that it is determined that the Participant is in breach of the Market Rules, trading regulations or good market practice,
 - 2) impose a penalty on the Participant up to EUR 25,000 or the PLN equivalent thereof if it finds that the activity of the Participant is in gross violation of the regulations governing the Market or the rules of trading;
 - 3) suspend the Participant from the Market for a definite period of time, not longer than 6 months, in the event that the Market Committee determines that the Participant:
 - a. has committed a gross breach of the Market Rules, trading regulations or good market practice, or
 - b. acts in the manner that may pose a threat to trading security on the Market or to interests of other Participants,
 - 4) change the Participant's status from Market Maker to Market Taker in the event of non-fulfilment of the obligation referred to in Article 14 (1) (b) hereof,

- 5) exclusion the Participant in the event that the Participant fails to remedy the breach in the suspension period.
- 7a. The Company may impose one of the penalties referred to in point 7 or simultaneously impose one of the penalties referred to in point 7.3-7.5 and the penalty referred to in point 7.2.
8. During the suspension period the Participant will not be entitled to submit any Orders. The suspension will be effective as soon as it is registered in the System.
9. When implementing the decision, the Company will inform the Participant, the Polish Financial Supervision Authority and the Issuer, and consequently other Participants, that a procedural penalty has been imposed.

Article 37 – Obligatory suspension and exclusion of Participants

1. The Board will suspend the Participant from the Market in the following events:
 - a. subject to point b) below, if it is determined that the Participant does not fulfil any of the conditions set forth in Articles 3, 4, 5 or 6 hereof;
 - b. the conditions set forth in Articles 4, 5 or 6 of the Market Rules are not fulfilled and no evidence is presented to prove of fulfilment these conditions in accordance with Article 13.1.b., Article 14.1.c. and Article 15.1.b. of the Market Rules within 3 months of receipt of such notice;
 - c. suspension of such Participant by relevant authorities.
 - d. when the Participant fails to pay the fees provided for in the Market Rules within the prescribed time limit,
 - e. when recovery or restructuring proceedings are initiated with respect to the Participant.
2. The Board will exclude Participant from the Market if:
 - a. the Participant ceases to be one of the entities referred to in Articles 3 hereof;
 - b. the Participant is declared bankrupt;
 - c. liquidation proceedings are initiated with respect to the Participant;
 - d. after the suspension period referred to in point 1 (b) hereof the Participant hasn't removed the cause of suspension;
 - e. relevant authorities apply measures excluding the Participant from participation in the Market.
3. Decisions on matters referred to in paragraph 1 and paragraph 2 will be made by the Board after making appropriate explanatory procedures. The provisions of Article 36.1 will apply accordingly to such inquiries.

SECTION VIII LIABILITY AND DISPUTES

Article 38 – Liability

1. The Board reserves the right to terminate the Market at any time.
2. The Company will have no liability (save for a refund of the pro-rata part of any pre-paid fees) to any Participant in respect of any suspension or termination of the Market. The Company will have no liability to any Participants or other parties in respect of breach of the Market Rules or other market regulations by other Participants.
3. In the case of wilful misconduct and/or gross negligence on its part, subject to Article 16e(4) of the Act, the Company will have liability to any Participant or any other person with respect to any action taken or omitted to be taken in connection with providing the services contemplated by these Market Rules. Further, the Company will have no liability to any Participant or any other person for consequential, indirect or unforeseeable loss or damage. The Company will also have no liability to Participants for the operations of a Clearing Institution.
4. The Participant is liable for losses or damages which the Company suffered in respect of the Participant's improper use of the System, in particular for losses caused by breaching rules of System use.

Article 39 – Disputes

1. Any and all disputes between the Company and Participants that may arise with the Company in relation to Market membership, including those concerning the application and the interpretation of the present Market Rules and its Annexes, and amendments thereto, will be put forward to Arbitrary Court of National Chamber of Commerce, in accordance with rules of that court; such Court will decide by applying Polish laws.
2. Disputes between the Participants that may arise from the participation in the Market, as regards to clearing the transaction, that due to the Regulations are cleared by the Company, will be put forward to Arbitrary Court of National Polish Chamber of Commerce, in accordance with rules of that court. Polish law applies to disputes resolution by the Court.

SECTION VIIIA – DIGITAL OPERATIONAL RESILIENCE

§ 39a – Digital operational resilience of the Market

The Company and the Participants shall comply with Annex T which sets out the specific terms and conditions of cooperation on digital operational resilience taking into account Regulation (EU) 2022/2554 of the European Parliament and of the Council of 14 December 2022 on digital operational resilience for the financial sector and amending Regulations (EC) No 1060/2009, (EU) No 648/2012, (EU) No 600/2014, (EU) No 909/2014 and (EU) 2016/1011 (DORA).

SECTION IX – LIST OF ANNEX TO THE MARKET RULES

Article 40 – List of Annex to the Market Rules

The following annexes form an integral part of these Market Rules:

- 1) Annex A – Maturity Buckets;
- 2) Annex B – (repealed);
- 3) Annex C – Minimum Trading Quantity and Trading Quantity;
- 4) Annex D - Traded Securities Interest Data;
- 5) Annex E - Trading Day Schedule;
- 6) Annex F - Trading Days;
- 7) Annex G – Obligations of Market Makers;
- 8) Annex H – Major Market Incidents (MMI);
- 9) Annex I - Clearing And Settlement Procedures;
- 10) Annex J - Standard format of the application for authorisation to be admitted to trading and the documents that need to be attached to the application;
- 11) Annex K - Trading Principles In The Institutional Segment;
- 12) Annex L– (repealed);
- 13) Annex M – Publication of Information by the Company;

- 14) Annex N – Procedure To Be Used In The Event That A Participant Is Unable To Verify On Its Screen The Contracts Executed By It On The Market;
- 15) Annex O - Trade Cancellation and Correction Request;
- 16) Annex P- Fee Schedule;
- 17) Annex R - Particular rules of the conditional (repo) transactions;
- 18) Annex Q – Commissions for transactions concluded on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules;
- 19) Annex S – Best Market Practices.
- 20) Annex T - Specific terms and conditions of cooperation on digital operational resilience (DORA)

ANNEX A – MATURITY BUCKETS

Traded Securities will be classified in the following maturity buckets according to their remaining maturity:

Short term	Up to 1 year
Bucket A	+ 1 year to 2.5 year
Bucket B	+ 2.5 year to 6 years
Bucket C	+ 6 years to 11 years
Bucket D	+ 11 years

ANNEX B – (repealed)

ANNEX C – MINIMUM TRADING QUANTITY AND TRADING QUANTITY

1. Minimum trading quantity - Cash Market

1. Minimum trading quantity on the cash market is expressed in face value of securities being its object.
2. Minimum trading quantity on the cash market for Traded Securities denominated in PLN is expressed in Table A and minimum trading quantity for Traded Securities denominated in EUR is expressed in Table B.
3. Cash market Orders and transactions may be executed in Traded Securities in a face value equal to the minimum trading quantity, subject to point 4.
4. Odd lots of PLN 2.5 million for Traded Securities denominated in PLN are subject to acceptance of Market Makers who submit a Proposal on the cash market.
5. Point 4 will not apply to Mid Price Proposals and Mid Price transactions and to transactions concluded according to Article 27a and Article 27b of the general part of the Rules.

Table A

Category	Cash Market	Institutional Segment
Benchmark Securities	PLN 5 million	PLN 2.5 million
Other Trading Securities different from Benchmark Securities	PLN 5 million	PLN 2.5 million
Traded Securities subject to Mid Price Proposals or Mid Price transactions	PLN 30 million	
Liquid Trading Securities defined by the European Securities and Markets Authority, traded on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules	PLN 30 million	-

Table B

Category	Cash Market	Institutional Segment
Benchmark Securities	-	-
Other Trading Securities different from Benchmark Securities	EUR 0.5 million	-
Traded Securities subject to Mid Price Proposals or Mid Price transactions	EUR 6 million	
Liquid Trading Securities defined by the European Securities and Markets Authority, traded on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules	EUR 6 million	-

2. Minimum trading quantity - Repo Market

1. Minimum trading quantity on the repo market is expressed in face value of Traded Securities being its object and is expressed in Table C.
2. Subject of conditional transactions may be Traded Securities with nominal value which is minimum trading quantity or multiple thereof.

Table C

Category	Repo Market
Traded Securities denominated in PLN	PLN 2.5 million
Traded Securities denominated in EUR	EUR 0.5 million

3. Trading quantity

Orders and transactions concluded on the cash market and the repo market in a face value exceeding the minimum trading quantity will in each case be equal to:

- 1) a multiple of PLN 2.5 million for Traded Securities denominated in PLN,
- 2) a multiple of EUR 0.5 million for Traded Securities denominated in EUR.

ANNEX D – Traded Securities Interest Data

Article 1

Any reference in Annex D to:

- 1) WIRON Data - will mean the values of the WIRON benchmark, whose administrator is GPW Benchmark S.A., comprising respectively: WIRON - Warsaw Interest Rate Overnight, WIRON Single Base Index, WIRON 1M Compound Rate, WIRON 3M Compound Rate or WIRON 6M Compound Rate,
- 2) Interest Data - will mean the cumulative value of interest, defined as the value of accrued interest since the beginning of the interest period, calculated at each day of the interest period of the Traded Securities.

Article 2

1. For the purposes of organising trading and ensuring the clearing and settlement of transactions, in respect of floating rate Traded Securities whose Interest Data is determined on the basis of WIRON Data, the Company calculates the Interest Data for these Traded Securities.
2. The Company makes available to the Participants the Interest Data calculated for a given Trading Day, via the electronic means indicated by the Company, at the latest on the third Trading Day before the day for which this Interest Data is calculated, provided that the WIRON Data is received.

Article 3

For the purposes of organising trading and ensuring the clearing and settlement of transactions, in respect of fixed rate Traded Securities and floating rate Traded Securities other than specified in Article 2 of Annex D, the Company makes Interest Data available to the Participants, via the System or any other electronic means indicated by the Company, at the latest on the third Trading Day before the day for which such Interest Data is calculated, provided that such data is made available by the Issuer.

Article 4

1. For the purposes of ensuring the clearing and settlement of transactions, the Company calculates and makes available to the Participant the clearing amount of each transaction concluded by the Participant on the Market on the day of its conclusion, via the electronic means indicated by the Company, and generates, taking into account this amount, a clearing or settlement instruction on the basis of the provisions of Annex I to the Rules.
2. The clearing amount of a transaction in floating or fixed rate treasury bonds includes the Interest Data calculated for the day of clearing of that transaction.

Article 5

1. In the event that:
 - 1) there are no Interest Data or WIRON Data,
 - 2) the Interest Data or WIRON Data are not correct or contain errors

- the Company may take appropriate action as referred to in Article 17.2 and 17.3, Article 19.1 of the general part of the Rules and Article 1.4 of Annex O to the Rules.
- 2. In the cases referred to in paragraph 1, the Company corrects, as far as possible, the parameters regarding the concluded transaction, in particular regarding its clearing amount, on the basis of correct and error-free data only on the date of conclusion of this transaction. The parameters relating to a transaction are corrected on the basis of Article 11 of Annex O to the Rules.

ANNEX E – TRADING DAY SCHEDULE

I. General provisions.

Trading Day Schedule is determined in accordance with the Central European Time.

II. Cash Market

1. **8.30 a.m.– 8.55 a.m.:** Pre-Market phase, during which only Market Makers are operative. During this time period the Market Makers can insert, change, suspend and re-activate their Proposals. Each market maker can only see his own proposals. Proposals are not matched.
2. **8.55 a.m.– 9.00 a.m.:** Preliminary Market phase, during which all Participants can operate, on the basis of the user profile assigned to them. In the Preliminary Market phase specifically:
 - 1) Proposals can be inserted,
 - 2) There is no automatic matching of Proposals,
 - 3) The “Best Page” is supplied and the updated aggregates are calculated,
 - 4) All Participants can send Applications,
 - 5) Applications for which in System the opposite side is accessible as well as they fulfil the conditions of opposite side , as well as for which face value of securities being her object is equal or over the minimum trading quantity for relevant kind of Securities are accepted automatically by the System.
 - 6) Market makers can decide whether to accept trades for amounts, which are lower than the minimum trading quantity for relevant kind of Securities (only in this case the matching remains on the peripheral system).
3. **9.00 a.m. – 5.00 p.m.:** Open Market phase, during which all Participants can operate on the basis of the user profile assigned to them. During that time all Participants may insert, change, suspend and re-activate their Proposals and send their Applications. The System will send signalling messages to the Participants before the start of the Open Market phase occurs. Should there be a blackout, the System will use it to clear the automatic matching and promptly re-constitute the “Best Page”.

In this market phase the automatic matching of Proposals and Applications or two Proposals and concluding transaction of spot market is active.

Mid Price transactions are concluded from 9.30 am to 5 pm.
4. **5.00 p.m.– 7.00 p.m.:** Closed Market phase, during which the market is completely inoperative. During this time period Participants can only send and receive messages, examine statistics concerning the day’s negotiations, receive reports, lists and indexes and load new peripheral software.

III. Repo Market

1. **8.30 a.m.– 4.45 p.m.** On the Repo Market it is possible to conclude the conditional transactions with restriction, that the opening transaction in conditional transaction is cleared in T+O deadline, where T means the date on which the transaction is effected, can be concluded until 2.15. p.m. only.
2. **4.45 p.m.– 7.00 p.m.:** Market Closed.

ANNEX F – TRADING DAYS

1. Trading on the Market will be allowed in trading days, i.e. from Monday to Friday, except for:
 - 1) 1 January;
 - 2) 6 January;
 - 3) Good Friday;
 - 4) Easter Monday;
 - 5) 1 May;
 - 6) 3 May;
 - 7) Corpus Christi;
 - 8) 15 August;
 - 9) 1 November;
 - 10) 11 November;
 - 11) 24 December;
 - 12) 25 December;
 - 13) 26 December;
 - 14) 31 December.

Every year, the Company will make available information to Participants about the dates of movable holidays minimum 10 days in advance.

2. The Company defines additional days, when trading on the Market would be suspended.
3. The Company will advise the Polish Financial Supervision Authority (KNF), the Issuer, the Clearing Institution, the Settlement Institution and the Participants about the extra days when trading on the Market will not take place – minimum 10 days in advance, by means determined by the Company.
4. Market Maker will be relieved from its obligations under Article 14.1.b) of the general part of the Rules on such days which are recognized public holidays in the Participant's county of operation such that the Market Maker is not in default of its undertaking for failing to comply with its obligation on such days.

ANNEX G – OBLIGATIONS OF MARKET MAKERS

Article 1. Obligations of Market Makers – General

1. Market Makers perform their obligations in accordance with the requirements defined in the Rules, in particular Annex G, and in accordance with the Act, taking into account the provisions of Commission Delegated Regulation (EU) 2017/578.
2. Market Makers are obliged to quote their double-side Proposals and comply with maximum bid/offer spread and minimum quantity, according to the requirements for specific classes of benchmark Traded Securities.

Article 2. Terms and Conditions of Quotations

Market Makers are obliged to submit double-side Proposals on the cash market in accordance with the quotation requirements including:

- 1) the presence of double-side Proposals on the cash market, i.e., the minimum required period of maintaining such Proposals on the Market during the Trading Day, laid down in Article 3.1 of Annex G, and the terms and conditions of introducing and modifying their Proposals to the applicable requirements of quoting Traded Securities;
- 2) the maximum (b/o) Spread, i.e., the maximum allowed difference between the lowest limit price in a sell Proposal and the highest limit price in a buy Proposal, defined for each class and group of Traded Securities in Table A;
- 3) the minimum quoting quantity defined for each class of benchmark Traded Securities in Table A.

Article 3 Quotation Parameters

1. The minimum daily time of quoting each class of benchmark Traded Securities for each Market Maker is 5 hours during the open market phase.
2. The maximum b/o spread and the minimum quoting quantity are defined in Table A

Table A: Quoting Parameters of Benchmark Securities

	Benchmark Securities	
	<i>Max. b/o spread*</i>	<i>Min. quantity</i>
Short-term	---	---
Bucket A	30 ticks	10 million PLN
Bucket B	45 ticks	10 million PLN
Bucket C	60 ticks	10 million PLN
Bucket D	90 ticks	10 million PLN

**The maximum Spread is set in ticks, where 1 tick = 0.01% of the nominal value of Traded Securities or, for Treasury bills, of the yield.*

Article 4 Additional Obligations of Market Makers

3. Market Makers are obliged to put in place internal procedures for supervision, compliance and audit, enabling them to monitor their activities to ensure proper performance of the obligations of Market Makers, in particular to monitor the compliance of their activities with the applicable regulations, including Commission Delegated Regulation (EU) 2017/578, the Rules and other regulations and procedures governing the Market as concerns the obligations of Market Makers.
4. Market Makers are obliged to keep records of Proposals placed on the Market and transactions concluded in the performance of the obligations of Market Makers.
5. Market Makers are obliged to maintain the records referred to in points 1 and 2 for a period of time defined in the applicable regulations and to make them available at the written request of the Company or the competent supervisory authority.

Article 5 Exceptional Circumstances

1. Market Makers are not obliged to comply with the applicable requirements concerning quotations of Traded Securities in the event of occurrence of exceptional circumstances referred to in Article 3 of Commission Delegated Regulation (EU) 2017/578 (“Exceptional Circumstances”), where the quotation obligation:
 - 1) in the event of circumstances referred to in Article 3(a) and 3(c) of Commission Delegated Regulation (EU) 2017/578 and MMI, is suspended after the Company announces the occurrence of such circumstances and remains in force within the period of such circumstances;
 - 2) in the event of circumstances referred to in Article 3(b) of Commission Delegated Regulation (EU) 2017/578, is suspended after the Company announces the occurrence of such circumstances, provided that their occurrence may, in the opinion of the Company, impact the safety of trading and remains in force within the period of such circumstances;
 - 3) in the event of circumstances referred to in Article 3(d) of Commission Delegated Regulation (EU) 2017/578, is suspended after the Company is notified of the occurrence of such circumstances on the part of a Market Maker and remains in force within the period of such circumstances defined by the Market Maker in the information referred to in point 3;
 - 4) in the event of circumstances referred to in Article 3(e) of Commission Delegated Regulation (EU) 2017/578, is suspended after the competent supervisory authority announces the suspension of the obligation referred to in Article 9(4) of Regulation (EU) No 600/2014 of the European Parliament and of the Council and remains in force within the period of such suspension of the obligation.
2. The Company immediately publishes information about the occurrence of Exceptional Circumstances referred to in point 1.1, 1.2 and 1.4, including in the public market information stream.
3. Market Makers are obliged to notify the Company immediately of their inability to perform the quotation obligations in the event of Exceptional Circumstances referred to in point 1.3 and specify the reasons for the occurrence of such Exceptional Circumstances.

Article 6 Additional Obligations of Market Makers Performing the Functions of Dealers of State Treasury Securities

1. Market Makers performing the functions of Dealers of State Treasury Securities within the meaning of the Rules of Performance of the Functions of Dealers of State Treasury Securities defined by the Issuer will, in addition to the obligations defined in Article 1 – 5 of Annex G, participate in Traded Securities fixing sessions organised on the Market and provide double-side quotations for Traded Securities specified by the Issuer of Traded Securities in accordance with the Rules of State Treasury Securities Fixing defined by the National Bank of Poland in communication with the Issuer.
2. Market Makers performing the functions of Dealers of State Treasury Securities or seeking the status of Dealer of State Treasury Securities quote Traded Securities in the Dealer Activity Index assessment concerning the evaluation of the quality of quotations in accordance with the provisions of the Rules of Performance of the Functions of Dealers of State Treasury Securities defined by the Issuer.

Article 7 Obligations of the Company

The Company publishes:

- 1) the list of Benchmark Traded Securities;
- 2) the list of fixing Traded Securities, within the meaning of Article 31b of the general part of the Rules;
- 3) the list of Market Makers, including Market Makers performing the functions of Dealers of State Treasury Securities within the meaning of the Rules of Performance of the Functions of Dealers of State Treasury Securities;
- 4) information about decisions referred to in Article 5.

ANNEX H – MAJOR MARKET INCIDENTS (MMI)

1. Major Market Incidents ("MMI") means such circumstances relating to the technical functioning of the System as the Company in its sole discretion, will determine to be a major market incident. Without prejudice to such discretion, regard may be given to such factors as whether:
 - 1) the System is inaccessible (or "down") during scheduled trading hours;
 - 2) market-making is restricted because, for example, a network trunk is "down" resulting in a material number of market-makers being unable to access the System;
 - 3) the technical service level on the System is such that a material number of Participants cannot safely trade without their being exposed to significant market risks (for example, being unsure of their position, being unable to quote, being unable to see the best Price or seeing erroneous Prices in the best);
 - 4) the security or integrity of the System is compromised, or at imminent risk, or the Company is unable to see or control the System using standard tools.
2. The period of an MMI will be from such time as the Company will determine as the time of the first impact on the System of the MMI in question until such time as the Company will determine as the time when the System has been restored to its normal state.
3. The Company will immediately notify KNF, the Issuer, the Clearing Institution, the Settlement Institution and the Participants of the occurrence of an MMI.
4. If an MMI is published, the Company may:
 - 1) cancel the transactions according to the procedure laid down in section I.9 of Annex O;
 - 2) restrict Market access according to Article 21d of the general part of the Rules;
 - 3) suspend trading in Traded Securities according to Article 19.1 of the general part of the Rules;
 - 4) suspend trading with circuit breakers according to Article 21c of the general part of the Rules.

ANNEX I – CLEARING AND SETTLEMENT PROCEDURES

I. General provisions

Article 1

1. Acting pursuant to Article 78(7) of the Act, the Company will ensure efficient and correct clearing and settlement of transactions concluded on the Market.
2. Transactions concluded on the Market will be cleared according to Sections II, III and IV.
3. Transactions concluded on the Market will be settled according to Section V.

II. Clearing of transactions concluded on the Market

Article 2

1. Transactions concluded on the Market will be cleared by the Clearing Institution according to Article 3, subject to point 2.
2. The Company will clear transactions in accordance with Article 4 including:
 - 1) transactions concluded on the repo market to the extent of buy/sell back conditional transactions;
 - 2) Treasury Bill transactions concluded on the cash market.
3. The Participants authorise the Company:
 - 1) in the case referred to in point 1, to forward clearing instructions on their behalf to the Clearing Institution, and to obtain the list of non-cleared and cancelled transactions from the Clearing Institution;
 - 2) in the case referred to in point 2, to clear their transactions.

III. Clearing of transactions by the Clearing Institution

Article 3

1. Treasury Bond transactions, to the extent of transactions on the cash market and transactions on the classical repo conditional market, will be cleared by KDPW_CCP S.A. on the basis of the agreement executed between the Company, KDPW_CCP S.A. and Krajowy Depozyt Papierów Wartościowych S.A.
2. The Company will provide KDPW_CCP S.A., within agreed deadlines, with documents forming the basis of transaction clearing.
3. Transactions will be cleared according to the KDPW_CCP S.A. regulations including in particular the Rules of Transaction Clearing (organised trading).
4. Transactions referred to in point 1 will be covered by guarantees under the fund referred to in Article 65(1)(1) of the Act, except for transactions referred to in Article 27a and Article 27b of the general part of the Rules. The guarantee fund securing the clearing of transactions is operated by KDPW_CCP S.A. according to the “GPW BondSpot ATS Guarantee Fund Rules”.
5. Novation referred to in Article 45h(2) of the Act will apply to the clearing of transactions referred to in point 1 to the extent and on the terms and conditions laid down in the Act and in the KDPW_CCP

S.A. regulations, except for transactions referred to in Article 27a and Article 27b of the general part of the Rules.

6. Transactions referred to in Article 27a and Article 27b of the general part of the Rules will be cleared according to the rules set out in Article 44a(2) of the Rules of Transaction Clearing (organised trading).
7. The Participants involved in the clearing of transactions will comply with relevant rules and regulations of the Clearing Institution.

IV. Clearing of transactions by the Company

Article 4

1. The Company will clear transactions concluded on the Market which are not subject to clearing in the Clearing Institution, in accordance with this Section.
2. For the purpose of clearing, the Company will:
 - 1) register the transactions that are to be cleared;
 - 2) determine the scope of financial and other requirements to be satisfied by the parties to transaction clearing;
 - 3) provide the Participants with the information on financial and other liabilities under terms and conditions of specific transactions;
 - 4) generate orders to settle transactions on the basis of the documents providing for the terms and conditions to execute and clear the transactions (settlement instructions), determining a final value of financial and other requirements to be satisfied by the parties to the transaction clearing.
3. After completing the activities referred to in point 2, the Company will forward settlement instructions in an electronic form to the Settlement Institution.
4. Settlement instructions will be forwarded within the timeframes and under terms and conditions determined in the Settlement Institution regulations.

Article 5

1. After the transaction is executed, the Company will promptly deliver to the parties to the transaction, via the System, a confirmation of its execution, including the determination of the value of financial and other requirements to be satisfied by the parties to the transaction clearing.
2. The transaction clearing commences promptly upon its execution and ends at the moment of generating a settlement instruction.
3. The transactions cleared by the Company are cancelled only within the timeframe specified in point 2.

Article 6

The Participants will be granted a secure and exclusive access to the Company's dedicated site, where the Participant obtains daily activity reports at the end of the Trading Day, including the information on the transaction clearing.

Article 7

Transactions are cleared on the date of transaction execution, which involves determining financial and other liabilities specified in the terms and conditions of specific transactions, as at the date of their settlement.

V. Settlement of transactions concluded on the Market

Article 8

Treasury Bond transactions are settled by Krajowy Depozyt Papierów Wartościowych S.A. (KDPW) in compliance with the KDPW Regulations:

- 1) on the basis of the agreement executed between the Company, KDPW and KDPW_CCP S.A., subject to point 2;
- 2) on the basis of the agreement executed between the Company and KDPW – for transactions on the conditional buy/sell back repo market.

Article 9

Treasury Bill transactions are settled by the National Bank of Poland (NBP), on the basis of the agreement executed between the Company and NBP, in compliance with the NBP regulations.

Article 10

1. The transactions executed on the Market are settled within the timeframes determined based on a transaction settlement schedule published by Settlement Institutions.
2. The cash market transactions are settled within the deadline T+2, where T is a day of transaction execution on the Market.
3. Classic and buy-sell back repo conditional transactions are settled as follows:
 - 1) an opening transaction within the deadline agreed by the parties to the transaction but not longer than T+2,
 - 2) a closing transaction within the deadline agreed by the parties to the transaction, with the reservation that this day falls after the settlement date of an opening transaction, but not later than within 365 days from the settlement date of an opening transaction.
4. The Settlement Institution settles the transactions in compliance with the DVP (Delivery versus Payment) principle.

Article 11

1. The Participants involved in the settlement of transactions executed on the Market will comply with relevant rules and regulations of the Settlement Institution.
2. With respect to transactions cleared by the Company, Participants shall ensure the application of measures referred to in Article 7(3)-(8) of Regulation (EU) No 909/2014 of the European Parliament and of the Council of 23 July 2014 on improving securities settlement in the European Union and on central securities depositories and amending Directives 98/26/EC and 2014/65/EU. This obligation shall apply as of the date of coming into force of the Regulation to that extent.

VI. Conclusion of transactions by the Clearing Institution on the Market

Article 12

On the terms and conditions laid down in a separate agreement, the Clearing Institution may place Orders on the Market and conclude transactions on its own behalf on the account of a Participant in cases related to the operation of the transaction clearing liquidity guarantee system referred to in the Act.

VII. Settlement Entity

Article 13

1. Participants that clear or settle transactions through a Settlement Entity authorise the Company to forward clearing or settlement communications on their behalf directly to the Settlement Entity and to obtain the clearing and settlement information from such Entity.
2. The Participants referred to in point 1 will authorise the Company to:
 - 1) regularly provide the information about the executed transactions to the Settlement Entity,
 - 2) suspend their activities on the Market, upon a due request of the Settlement Entity.

ANNEX J – The specimen of the application to be admitted on the Market and documents that need to be attached to the application.

Annex J – Application for Admission to Participate in the Market – Template and List of Enclosures

J1.1. Application for Admission to Participate in the Market – Template

**Application for Admission to Participate in
Treasury BondSpot Poland**

[name] (hereinafter “the Company”) with its registered seat in [city], [street, house number, post code], enrolled in the National Court Register maintained by the Court [name], registered number [KRS number], with share capital of [amount of share capital], email address:, represented by:

- 1) [name]
- 2) [name]

REPRESENTS THAT:

- 1) it intends to participate in the multilateral trading facility operated under the name of Treasury BondSpot Poland (hereinafter “the Market”) organised by BondSpot S.A. as:

- Market Maker,**
 Market Taker,
 Institutional Investor

- 2) it is acquainted, understands and undertakes to comply with the Treasury BondSpot Poland Market Rules, including their provisions concerning Market Maker functions,¹ and other regulations of the Market, including rules which regulate the Market in general;
- 3) it is acquainted and undertakes to comply with the rules for the use of the electronic system supporting trading on the Market;

Annex K – Trading Principles in the Institutional Segment

1. The Institutional Segment will constitute a separate Market part.
2. Institutional Investors and Market Makers can be the participants of the Institutional Segment.
3. Institutional Investors may trade in the Institutional Segment after they are admitted to operations in this Market part, pursuant to the principles stipulated in the Regulations.
4. Market Makers are entitled to execute transactions in the Institutional Segment since the commencement of their quotations in this segment. Market Makers perform their function in the Institutional Segment based on the principles stipulated in the Regulations. The withdrawal or suspension of the Market Maker function, results in an automatic loss or suspension of the right to trade in the Institutional Segment.
5. The trading in the Institutional Segment takes place during sessions on Trading Days listed in Annex F and during Trading Hours of the cash market, as defined in Annex E.
6. The minimum trading unit and the trading unit are defined in Annex C.
7. Trading in the Institutional Segment and the settlement and clearing of the transactions executed in this Segment, are performed based on the principles stipulated in the Trading Regulations of the cash market, except for the provisions of points 8 and 9 of this Annex.
8. Institutional Investors may execute cash market transactions in the Institutional Segment by submitting orders.
9. A participant of the Institutional Segment may appoint other Participants of this segment with whom he would not trade within the Institutional Segment due to statutory restrictions or due to other material reasons approved by the Market Committee.

ANNEX L – (repealed)

ANNEX M – PUBLICATION OF INFORMATION BY THE COMPANY

I. Publication of Information by the Company

1. The Company ensures the publication, in electronic messages, of uniform information concerning Orders and transactions on the cash market, in particular the following data:
 - 1) the range of bid and offer prices and the depth of trading interest at those prices (pre-trade transparency) to the extent defined in Article 2 of Commission Delegated Regulation (EU) 2017/583;
 - 2) information on concluded transactions (post-trade transparency) to the extent defined in Article 7(1)-(3) of Commission Delegated Regulation (EU) 2017/583.
2. The information referred to:
 - 1) in point 1.1 – is published in real time,
 - 2) in point 1.2 – is published in the time limit defined in Article 7(4) of Commission Delegated Regulation (EU) 2017/583.
3. The Company publishes uniform delayed information of Orders and transactions on the cash market on the terms and conditions laid down in Article 13 of Regulation (EU) No 600/2014 of the European Parliament and of the Council.
4. In specially justified cases, if required by the safety of trading or the interest of Participants, the Company may decide to delay or suspend the publication of information and publish the reason for the delay or suspension and, to the extent possible, information on the planned resumption of the publication of information.
5. The provisions of points 1-3 do not apply to Orders and transactions on the repo market.

II. Exclusions from the Publication of Information by the Company

1. In accordance with the applicable exclusions from pre-trade transparency for Mid Price Proposals, the Company does not publish the information referred to in Section I.1.1 if any of the following exceptions occurs:
 - 1) the Traded Security is not liquid;
 - 2) the size of the Mid Price Proposal is equal to or greater than the size of an order that is large in scale.
2. In accordance with the applicable exclusions from pre-trade transparency for Orders placed for the purpose of registration of transactions on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules, the Company does not publish the information referred to in Section I.1.1 if any of the following exceptions occurs:
 - 1) the Traded Security is not liquid;
 - 2) the size of the Order is equal to or greater than the size of an order that is large in scale.
3. In accordance with the applicable exclusions from pre-trade transparency, the Company does not publish the information referred to in Section I.1.1 concerning the undisclosed part of the Proposal.
4. An order that is large in scale means an Order within the meaning of Article 3 of Commission Delegated Regulation (EU) 2017/583, whose size is determined by the European Securities and Markets Authority for the purposes of Article 9(1)(a) of Regulation (EU) No 600/2014 of the European Parliament and of the Council.

III. Publication of Daily Statistics by the Company

1. The list described in Article 31a point 2 of the general part of the Rules will be compiled and released to the public at the end of each Trading Day and will be divided into sections; the list will indicate, for each type of Traded Security.
 - 1) identification code of the type of Traded Security;
 - 2) description of the type of Traded Security;
 - 3) the minimum price;
 - 4) the maximum price;
 - 5) the volume weighted average price;

6) the volume negotiated.

Where items (3) – (5) are determined on the basis of transactions concluded in the Trading Day, excluding the transactions concluded on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules.

2. In case of conditional contracts in addition to the above data the period will be made public, describing the number of days between clearing day of opening transaction (including that day) and clearing day of closing transactions (excluding that day). All calendar days in a given year are taken into account.

**ANNEX N – PROCEDURE TO BE USED IN THE EVENT THAT A PARTICIPANT IS
UNABLE TO VERIFY ON ITS SCREEN THE CONTRACTS EXECUTED
BY IT ON THE MARKET**

1. In the event that Participant for technical reasons cannot access to the system, the Participant may receive from the Company information about the Market and about transactions concluded by this Participant.
2. The information referred to in point 1, are provided to Participant by the Company by telephone or via e-mail on request of this Participant.
3. Reported request should be confirmed:
 - 1) by telephone – in case of e-mail request,
 - 2) via e-mail – in case of telephone request.
4. The request should be reported and confirmed by a person authorized by the Participant to conclude transactions on the Market.
5. At the request of the Participant the Board will be entitled to suspend the Participant and remove all his Proposals until the removal of technical barriers referred to in point 1.

Annex O – Trade Cancellation and Correction Procedure

I. Cancellation of trades concluded on the Market

§ 1. Cases of trade cancellation

The Company may cancel trades concluded on the Market:

- 1) at the request of a counterparty to the trade, with the consent of both counterparties to the trade, on the terms set out in Articles 2 – 4 of Annex O to the Rules (bilateral cancellation);
- 2) at the request of a counterparty to the trade, if the other counterparty refuses to give consent for the cancellation, on the terms set out in Articles 5 – 8 of Annex O to the Rules (unilateral cancellation);
- 3) when an MMI occurs, on the terms set out in Article 9 of Annex O to the Rules,
- 4) on the occurrence of an event or error, not caused by an MMI:
 - a) in the System or in other IT systems supporting the operation of the Market, or
 - b) in data received from third parties and used by the System or other Market IT systems for the purposes of organising trading or ensuring the clearing or settlement of transactions,

resulting in the conclusion of a trade whose parameters do not comply with legal regulations, requirements arising from the Market Rules or other regulations applicable on the Market or the inability to properly clear or settle the trade, on the terms set out in Article 10 of Annex O to the Rules.

§ 2. Bilateral cancellation

1. In case of consent of both counterparties for the cancellation, the trade cancellation procedure set out in Articles 2 – 4 shall apply.
2. The Company may initiate the trade cancellation procedure at a request of at least one counterparty to the trade sent by e-mail (BNR@bondspot.pl).
3. A trade cancellation request should be submitted by a person authorised to execute transactions on the Market.
4. A trade cancellation request should indicate a material reason for the trade cancellation.
5. Subject to point 6, a trade cancellation request should be delivered to the Company and confirmed by the other counterparty to the trade no later than 17:05 on the trade execution date and:
 - 1) within maximum 15 minutes after the execution of the trade in case of T+0 transactions, and
 - 2) within maximum 30 minutes after the execution of the trade in case of other transactions.
6. A request for the cancellation of a conditional trade concluded under the rules set out in Article 27a and Article 27b of the general part of the Rules should be filed with the Company and confirmed by the other party to the transaction no later than 17:05 on the day of execution of the trade and no later than 25 minutes after the execution of the trade in case of T+0 transactions.
- 6a. Trades cleared by the Company may only be cancelled within the period set out in Article 5 point 2 of Annex I to the Rules.
7. Immediately upon receipt of a request to cancel transaction, the Company is obliged to inform:

- 1) the second party to the transaction about the submitted application without indicating the name of the Participant requesting the cancellation of the transaction,
 - 2) all Participants about the ongoing procedure for canceling the transaction without indicating the names of the Participants – both sides of the transaction.
- 7a. The Company may disclose to the second party of the transaction that is the subject of the transaction cancellation procedure, the Participant's data including the Participant's name and contact details of the person authorized to conclude the transaction on behalf of the Participant, at the request of the party of that transaction, unless:
- 1) Participant shall authorize the Company in writing to disclose this data to the second party of the transaction by submitting a declaration, the form of which is specified in the Participant's information card referred to in Annex J, and
 - 2) a person authorized by the Participant to conclude transactions on the Market agrees to such disclosure regarding to the indicated transaction that is the subject of the transaction cancellation procedure
8. The Company shall take actions to cancel a trade immediately upon its receipt of consents for the cancellation from both counterparties to the trade. In the absence of the consent of the other counterparty for the cancellation of the trade, the Company shall notify the requesting counterparty of the absence of consent for the cancellation of the trade.

§ 3. Reasons for bilateral cancellation

1. In particular, the cancellation of a conditional transaction may be performed by Company in case of Major Price Difference (MPD). MPD means that a reference price calculated by the System for the conditional transactions referred to in Annex R is significantly different from the actual price at which transactions are concluded on the cash market.
2. The Market Committee shall prepare a catalogue of incidents or criteria for estimation of incidents, others than mentioned in point 1 which may be recognised by the Company as material cause for trade cancellation.

§ 4. Bilateral cancellation – actions after cancellation

In case of the cancellation of a trade, the Company shall immediately inform both counterparties thereof and disclose the information about the cancelled trade to the public including:

- 1) the Traded Security's ISIN code,
- 2) the Traded Security's price,
- 3) the date and time of the contract.

§ 5. Unilateral cancellation

1. If one of the counterparties to a trade refuses to give its consent for the cancellation of the trade on the terms set out in Article 2 of Annex O to the Rules, the trade cancellation procedure set out in Articles 5 – 8 of Annex O to the Rules shall apply.
2. The Company may initiate the trade cancellation procedure at a request of a counterparty to the trade sent by e-mail (BNR@bondspot.pl).
3. A trade cancellation request should be submitted by a person authorised to execute transactions on the Market.
4. A trade cancellation request should indicate a material reason for the trade cancellation.

5. A trade cancellation request should be delivered to the Company no later than 17:10 on the trade execution date and no later than 5 minutes after the Company notifies the requesting counterparty by email of the refusal of the other counterparty to the trade for the cancellation of the trade on the terms set out in Article 2 of Annex O to the Rules, subject to point 6.
6. Trades cleared by the Company may only be cancelled within the period set out in Article 5 point 2 of Annex I to the Rules.

§ 6. Reasons for unilateral cancellation

1. The Company may cancel a trade at the request of one counterparty to the trade in the absence of consent of the other counterparty to the trade only if the transaction price differs at least by a value determined according to point 2:
 - 1) from the price of the last transaction in Traded Securities marked with the same ISIN code executed within 15 minutes before the execution of the transaction subject to the cancellation request,
 - 2) in case the price cannot be determined in a manner referred to in sub-point 1 above, from the last fixing rate of the Traded Securities marked with the same ISIN code, referred to in Article 31b of the general part of the Market Rules,
 - 3) in case the price cannot be determined in a manner referred to in sub-points 1 and 2 above, from the price of the Traded Securities marked with the same ISIN code fixed based on the opinion of at least two representatives of the Participants who are participants of the Market Committee, excluding representatives of the Participants who are parties to the transaction to be cancelled.
2. The acceptable difference should be equal at least to:
 - 1) the maximum Spread as specified in Annex G to the Rules – if the transaction involves Benchmark Securities, or
 - 2) 40 basis points – if the transaction involves short-term Traded Securities, or
 - 3) the double maximum Spread for a given group of Traded Securities classified according to their maturity date as described in Annex A – if the transaction involves any other Traded Securities.
3. In order to obtain the opinion referred to in point 1.3, the Company shall apply to representatives of the Participants who are participants of the Market Committee for the identification of the price to be used in the determination of the market valuation adequate to the execution time of the transaction subject to the cancellation request, and then the Company shall determine the market value based on the price constituting the arithmetical average of the prices provided by representatives of the Participants issuing their opinions.
4. The Market Committee shall prepare a catalogue of incidents or criteria for estimation of incidents other than specified in point 1 which may be recognised by the Company as material cause for trade cancellation.

§ 7. Unilateral cancellation – actions after cancellation

In case of the cancellation of a trade, the Company shall immediately inform both counterparties thereof and disclose the information about the cancelled trade to the public including:

- 1) the Traded Security's ISIN code,
- 2) the Traded Security's price,

- 3) the date and time of the contract.

§ 8. Special reason for unilateral cancellation

The provisions of Articles 6 and 7 shall not apply to the cancellation of transactions in the case referred to in Article 5.3 of Annex R to the Rules.

§ 9. Cancellation in case of MMI

1. If an MMI has occurred, the Company shall perform cancellation of such trades as the Company shall, in its sole discretion, determine to be affected by the MMI, subject to point 2.
2. The Company may determine that:
 - 1) affected trades include trades executed outside the period of the MMI, and
 - 2) trades executed during the period of the MMI are not affected by the MMI.
3. The Company may consult with Participants before deciding whether to cancel a transaction.
4. The Company shall inform both counterparties, not later than 18:30 Central European Time on the Trading Day on which MMI occurs, of the trades that are subject to cancellation and disclose the information about the cancelled trades including:
 - 4) the Traded Security's ISIN code,
 - 5) the Traded Security's price,
 - 6) the date and time of the contract.In special circumstances, the Company may provide the above information later.

§ 10. Cancellation due to an event or error not caused by MMI

1. In the case of the occurrence of an event or error, not caused by an MMI, the Company shall cancel the trades which the Company considers to be concluded as a result of such event or error.
2. A trade may be cancelled on the day on which it is concluded and, with regard to trades cleared by the Company, only within the period indicated in Article 5.2 of Annex I to the Rules.
3. In the cases referred to in Article 5.1 of Annex D to the Rules, the Company may cancel a trade unless it is possible to correct it.
4. Before deciding to cancel trades, the Company may consult the Participants who are counterparties to such trades.
5. The Company shall immediately notify the Participants who are counterparties to trades of the cancellation of such trades via 4BondNet or by email.

II. Correcting trades concluded on the Market

§ 11. Correcting trade parameters

1. The Company may correct data sent to the Clearing Institution or the Settlement Institution for transactions concluded on the Market if such correction is necessary for the appropriate clearing and settlement of the transactions.
2. The Company shall notify the counterparties to a transaction of the final transaction parameters sent to the Clearing Institution or the Settlement Institution.

ANNEX P – FEE SCHEDULE

I. CASH MARKET FEES

A. Schedule of fees for Market Makers and Market Takers

1. Monthly fees for participation in the Market

- 1.1. Each Participant, referred to in part I.A. of this Annex, is charged monthly fee for the participation in the Market, in the amount specified in Table A.
- 1.2. Monthly fee is charged irrespectively to the value of transactions which were concluded by the Participant in the calendar month.
- 1.3. Under monthly fee in a given calendar month Participant may revoke transaction without cancelation fee to an amount equal to twice the value specified in Section III, point 1.1) of this Annex.
- 1.4. In case of admission of Participant to trading on the Market, the first monthly fee is charged for the month in which the Participant admitted to trading on the Market in accordance with Article 7.8 of the general part of the Market Rules. Regardless of the day of month in which Participant was authorized the first monthly fee is charged in full amount.
- 1.5. In case of resignation of Participant from trading on the Market or exclusion of Participant, the last monthly fee is charged in full amount for calendar month in which the Participant lost its status.
- 1.6. In case of change the status of the Participant from Market Maker to Market Taker or from Market Taker to Market Maker, monthly fee, for the calendar month in which the change of status of the Participant occurred is charged in full amount in accordance with rate which was binding for Participant prior to this change.

Table A: Monthly fee

Participation type	Monthly fee
Market Maker	41.250,00 PLN
Market Taker	20.625,00 PLN

2. Transaction fees

1. Transaction fees will be charged from both transaction counterparties, with reference to the provisions of this chapter.
2. Subject to point 2.4, transaction fees from the Market Maker are collected only from the Aggressor, according to Table B at the rate of interest, according to the volume of the transactions in a given transaction threshold. All cash transactions concluded by the participant are included in the transaction volume calculated chronologically in a given calendar month, with the exception of transactions referred to in point 2.4. and in Section 3.

3. Transaction fees from the Market Taker will be charged according to the percentage rate specified in Table C.
4. In case of transactions concluded on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules, Institutional Investor Market Makers are not charged transaction fee and these transactions are not included in the transaction volume referred to in point 2.2.
5. In case of change the status of the Participant from Market Maker to Market Taker or from Market Taker to Market Maker, transaction fees, for the calendar month in which the change of status of the Participant are charged in the amount from the Participants prior to this change.

Table B: Transaction fees charged from Market Maker

Monthly transaction threshold	Market Maker	
	Aggressive	
	Fee in %	Fee in PLN for PLN 1 mln volume of transactions concluded
up to PLN 3 billion	0.0025 %	25.00 PLN
between PLN 3 and 5 billion	0.0015 %	15.00 PLN
over PLN 5 billion	0.0005 %	5.00 PLN

Table C: Transaction fees charged from Market Taker

Market Taker	
Fee in %	Fee in PLN for PLN 1 mln volume of transactions concluded
0.003 %	30.00 PLN

3. Fees for transactions in Treasury Securities nominated in foreign currency

1. In case of transactions in Traded Securities denominated in foreign currency, the transactions fees are charged according to the percentage rates in Table D.
2. In case of transactions in Traded Securities denominated in foreign currency, the transactions fees are charged from transaction volume in PLN, calculated according to point 5 Section IV in this Annex.
3. Both transaction counterparties are charged with transaction fees.

Table D: Rates for transaction fees mentioned in point 3.1

Passive		Aggressive	
Fee in %	Fee in PLN for PLN 1 mln volume of transactions concluded	Fee in %	Fee in PLN for PLN 1 mln volume of transactions concluded
0.0010 %	10.00 PLN	0.0015 %	15.00 PLN

B. Schedule of fees for Institutional Investors

Institutional investors are charged transaction fees:

- 1) for transactions concluded on the Cash Market on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules – as percentage rate stipulated in the Table E.
- 2) for transactions concluded in the Institutional Segment of the Cash Market – as percentage rate stipulated in the Table F.

Table E: Rates for transaction fees mentioned in point 1)

Fee in %	Fee in PLN for PLN 1 mln volume of transactions concluded
0.008 %	80.00 PLN

Table F: Rates for transaction fees mentioned in point 2)

Fee in %	Fee in PLN for PLN 1 mln volume of transactions concluded
0.003 %	30.00 PLN

II. TRANSACTION FEES FOR CONDITIONAL TRANSACTIONS REPO (REPO MARKET)

1. Conditional transaction fees, taking into consideration rates in Table G or Table H are calculated based on the following formula

$$\text{Fee} = \text{value of the opening transaction} * \text{date of repo}/365 * \text{rate}$$

where:

- fee means fee from conditional transaction charged by the Company,
- value of the opening transaction means “dirty” value of the opening transaction,

- “repo” means the duration of conditional transactions expressed in days, calculated as the difference between the closing transaction clearing date and the opening transaction clearing date,
 - rate means appropriate annual rate in accordance with Table G or Table H.
2. In case of transactions in Traded Securities denominated in foreign currency, value of the opening transaction is converted in accordance with sec. 5 in Chapter V of this Annex, when transaction fee for conditional transaction is calculated.
 3. Both transaction counterparties are charged with transaction fees, subject to point 4.
 4. Fees for conditional transactions are not charged from the counterparty that is a Public Investor.

Table G: Rates of fees for conditional transaction, except transactions general collateral

	Participant admitted to trading on the Repo Market
Number of Repo days	Annual Fee in basis points to conditional transactions, excluding general collateral transactions
1 day	3.5
Between 2 and 4 days	3.0
More than 4 days	2.5

Table H: Rates of fees for transaction general collateral

	Participant admitted to trading on the Repo Market
Number of Repo days	Annual Fee in basis points to general collateral transactions
1 day	1.5
Between 2 and 4 days	1.5
More than 4 days	1.5

III. FEES FOR CANCELLATION OF THE TRANSACTION

1. Taking into account the provisions of points 3 to 5 and point 1.3 of Section I.A, in case of the bilateral cancellation of the transaction referred to in section I Article 1 point 1 of Annex O, will be taken:
 - 1) fee for the cancellation of the transaction equal PLN 2 500.00 from each party,
 - 2) fee for cancellation of the transaction equal PLN 5.000.00 from the party which undertook to pay a fee from both the sides.
2. Except for points 3 to 5 and point 1.3 of Section I.A, in case of a unilateral cancellation of transaction referred to in section I Article 1 point 2 of Annex O, from the party requesting the cancellation of this transaction will be taken fee for cancellation of the transaction PLN 5.000,00.
3. Taking into account point 1.3 Section I.A, in case of cancellation described in Article 5 point 3 of Annex R to the Rules, will be taken fee for cancellation of the transaction equal PLN 5,000, exclusively from the party who has made the allocation of Treasury Securities.

4. Trade cancellation fees are not charged in case of cancellation of transactions in connection with the occurrence of:
 - 1) IZR
 - 2) IRC referred to in section I Article 3 point 1 of Annex O,
 - 3) an event of error referred to in section I Article 10 point 1 of Annex O.
5. Trade cancellation fees are not charged for cancellation of a transaction to which a Public Investor is a party.

IV. RULES FOR CHARGING FEES

1. All the Participants are charged with the fees in accordance with provisions of this Annex, excluding the Issuer Agent in scope of the transactions concluded on the Market in connection with the duties of Agent.
2. The invoices are issued within 7 days after the end of the month.
3. The invoices are issued in PLN or EUR, in accordance with Participant's request.
4. In the case of issue an invoices in Euro the Company makes a conversion of the fees on the base of the rate which is determined by deducting the 2% of the average exchange rate for the Euro published by the National Bank of Poland on the last business day in a given calendar month. If on a given business day, no average exchange rate for a foreign currency was announced, for conversion purposes, the last average exchange rate for that currency announced by the National Bank of Poland will be applied.
5. In case of Traded Securities denominated in foreign currency, the Company converts the value of transactions concluded by the Participant into PLN according to the average exchange rate for a foreign currency announced by the National Bank of Poland applicable on the last business day in a given calendar month. If on a given business day, no average exchange rate for a foreign currency was not announced, for conversion purposes, the last average exchange rate for that currency announced by the National Bank of Poland will be applied.
6. The Participant is obliged to pay the due fees on the account of the Company within 21 days from the date of issuing the invoice. The due date is considered to be kept when in date mentioned in previous sentence the account of the Company was credited.
7. In case when the Participant delays its payments, the Company is entitled to charge legal interests for the period of the delay, pursuant to the rules of law applicable in the Republic of Poland.
8. Within the framework of fee promotion the Company, by means of a resolution of the Management Board, may reduce or abolish payment collection for a definite period of time.

Down below there is the attached to the unified Market Regulations information about the promotions applied by the BondSpot in terms of fees on the Market. The promotion was introduced by the BondSpot Management Board resolution No. 122/24 dated December 17, 2024, based on § 8 of Part IV of the Market Regulations – Annex P, in the form of a separate resolution, not constituting a part of the Market Regulations. The promotion may be revoked or changed at any time.

1. The Management Board of BondSpot S.A. decides to introduce a promotion on the Treasury BondSpot Poland Market (hereinafter: TBSP) on the terms specified in this resolution.
2. The promotion consists of reducing the amount of the fee for a classic repo transaction executed in accordance with the rules specified in § 27a and § 27b of the TBSP Regulations on the TBSP repo market (hereinafter: Treasury BondSpot Poland Market Rules 75transaction), which may involve individual treasury securities or a basket of treasury securities within a general collateral transaction, subject to paragraphs 3-5.
3. The promotion applies to transactions where one party is a TBSP participant with Market Maker status and the other party is a Public Investor.

4. The promotion is available to TBSP participants with Market Maker status.
5. The promotion involves reducing the fee rate expressed in basis points (bp) on an annual scale. The reduced fee amount for the transaction is calculated taking into account the rates specified in the table below, and in accordance with the rules specified in the TBSP Regulations, especially in Part II. Fees for conditional transactions (repo market) of Annex P to the TBSP Regulations.
6. The promotion is valid from January 1, 2025, till June 30, 2025.

Table: Promotional fees

Number of Repo days	Annual Fee in basis points to
1 day	1,0
between 2 and 4 days	1,0
More than 4 days	1,0

Down below there is the attached to the unified Market Regulations information about the promotions applied by the BondSpot in terms of fees on the Market. The promotion was introduced by the BondSpot Management Board resolution No. 77/24 dated September 19, 2024, based on § 8 of Part IV of the Market Regulations – Annex P, in the form of a separate resolution, not constituting a part of the Market Regulations. The promotion may be revoked or changed at any time.

1. The Management Board of BondSpot S.A. decides to introduce a promotion on the Treasury BondSpot Poland Market (hereinafter: TBSP) on the terms specified in this resolution.
2. The promotion consists of reducing the amount of the fee for a classic repo transaction executed in accordance with the rules specified in Annex R of the TBSP Regulations on the TBSP repo market (hereinafter: transaction), which may involve individual treasury bonds or a basket of treasury securities within a general collateral transaction, subject to paragraphs 3-5.
3. The promotion applies to transactions for which the transaction settlement data opens on the day of conclusion, and the transaction settlement data closes on the first business day after the date of conclusion.
4. The promotion involves reducing the fee rate expressed in basis points (bp) on an annual scale. The reduced fee amount for the transaction is calculated taking into account the rates specified in the table below, and in accordance with the rules specified in the TBSP Regulations, especially in Part II. Fees for conditional transactions (repo market) of Annex P to the TBSP Regulations.
5. The promotion applies to transactions that are not covered by the promotion introduced by a resolution of the Management Board of BondSpot S.A. No. 29/24 of 26 March 2024
6. The promotion is valid from October 1st, 2024, till June 30th, 2025.

Table: Promotional fees

Repo term	Annual Fee in basis points to conditional transactions
1 day	1,0
between 2 and 4 days	1,0
More than 4 dni	1,0

ANNEX R – Particular rules of the conditional (repo) transactions

Article 1

A conditional (repo) transaction is a transaction whereby each party undertakes the obligation towards the other party, one party to sell securities and the other to their purchase and payment of the defined amount of money (the opening transaction). At the same time, within the same transaction, its parties undertake the obligation to the reverse transfer of the same type of securities or equivalent securities contained in the same basket at pre-defined price and date (the closing transaction) unless the parties of conditional (repo) transaction agreed otherwise, on the basis of relevant regulations of Clearing Institution.

Article 2

1. The conditional (repo) transaction that can be executed on the Market is Buy Sell Back (BSB) and classic repo, and Participants may trade both individual Traded Securities and baskets of Traded Securities under the General Collateral transactions.

Article 3

1. All the Traded Securities admitted to trading, excluding indexed bonds and with respect to buy/sell back transactions excluding Traded Securities whose Interest Data is determined based on WIRON Data, as defined in Article 1 of Annex D of the Rules, may be subject to conditional (repo) transactions.
2. (repealed).
3. Minimum trading quantity and trading quantity on the Repo Market is expressed in Annex C.
4. Conditional transactions are concluded in accordance with Trading Day Schedule specified in Annex E.

Article 4

A conditional transaction cannot be concluded when the opening transaction clearing date falls before and the clearing date of the closing transaction falls after the record date (the date that determines who is entitled to receive the interest and redemption amount).

Article 5

1. Traded Securities which are subject to a fixing within the meaning of Article 31b of the general part of the Rules and are traded on the repo market may be part of the basket of Traded Securities of a General Collateral transaction.
- 1a. The composition of the basket of TS in a general collateral transaction is determined by the seller of TS in the opening transaction by allocating to the basket of specific TS series, from among the TS referred to in point 1
2. The allocation of TS that is the subject of a general collateral transaction should take place within 2 hours from the moment of its conclusion, but no later than within 15 minutes after the end of the transaction phase of the repo market, in accordance to the Trading Day schedule, specified in Part III of Appendix E.
3. The seller of TS in the opening general collateral transaction may allocate no more than four TS series. In case of allocating more than four TS series, the buyer of TS in the opening transaction has the right to request the cancellation of the general collateral transaction in a whole or in part.
4. (repealed).

Article 6

1. The Participant may submit Repo Proposals and conclude transactions on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules on the repo market.
2. The repo proposal submitted on the Market is provided by the System to all the Participants.
3. Participants may submit repo proposals on the Market to execute conditional transactions, in compliance with Article 21e of the general part of the Market Rules, in particular:
 - 1) name of Traded Securities or baskets of Traded Securities in the case of general collateral proposal;
 - 2) clearing dates for opening and closing the transaction;
 - 3) repo rate;
 - 4) nominal value of Traded Securities, subject to proposal.
4. The settlement date of an opening transaction cannot be longer than T+2. If the settlement date of an opening transaction is longer than T+2, the Company will cancel such conditional transaction in accordance with section I point 4 of Annex O.

Article 7

1. A conditional transaction is concluded from the moment confirmation of its conclusion by both parties or after 300 seconds counted from the moment of dispatch of the Application to the Repo Proposal issuer.
2. (repealed).
3. (repealed).
4. From the moment of placing the Proposal by the counterparty until the moment of confirming the execution of a conditional transaction by the Repo Proposal issuer, the Repo Proposal remains on the Market and is available to all Participants. The Repo Proposal issuer is obliged to confirm the previous Proposal, subject to point 5.
5. A participant may refuse to confirm of a buy/sell back repo transaction in Treasury Bonds and a conditional transaction in Treasury Bonds at the time referred to respectively in point 1. The only reason for the rejection of a repo transaction may be the lack of a credit limit available to the Participant for the counterparty of that transaction.
6. The Repo proposal may be suspended or cancelled by its issuer. After the confirmation of the transaction, the Repo proposal or any of its part being the subject of that transaction is automatically eliminated from the Market.

Article 8

1. The Company provides the Participants in real time via the System, in particular the following information:
 - 1) Repo rates, the volume of the best proposals for individual repo duration - in relation to the submitted Repo proposal;
 - 2) Repo rates, the volume and times of the last transactions - in relation to the concluded transaction.
2. The Company provides a given Participant of the list of transactions executed by this Participant.

Article 9

1. The repo rate (R_r) means an annual interest rate as determined by the parties to the transaction in order to calculate closing transaction value (V_2), based on an opening transaction value (V_1) and repo date (R_d).

2. The closing transaction value is determined in the following manner:

$$V_1 = C_1 \times Q$$

$$C_1 = P_1 \times N + A_1$$

$$C_2 = C_1 \left(1 + R_r \frac{R_d}{D} \right)$$

$$V_2 = C_2 \times Q$$

Index 1 means a parameter of an opening transaction, whereas index 2 means a parameter of a closing transaction.

N – par value of a Traded Security;

Q – number of Traded Securities in the transaction;

D – number of days for the purpose of settlements:

- 365 – for instruments denominated in PLN;
- 360 – for instruments denominated in EUR;

P – transaction execution price expressed as a percentage of a par value;

A – cumulated interest as at the transaction clearing date;

C – clearing price of a Traded Security (expressed in currency of a par value of such Traded Security);

V – transaction value.

3. The reference (CLEAN) price P_1 is determined on an hourly basis based on the following formula:

- 1) It is the last transaction price from the external data stream input into the System during the last hour (the external data stream of MTS system received price information from Bloomberg system),
- 2) If the price was not determined based on point 1 – the average put/call offer prices from the cash market,
- 3) If the price was not determined based on points 1 and 2 – the last price from the cash market from the preceding day,
- 4) If the price was not determined based on points 1, 2 and 3 – the issue price of a TS

ANNEX Q – Commissions for transactions concluded on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules

1. Each Market Maker is entitled to receive a Commission from the Company for transactions concluded with Institutional Investors in the given month on the Cash Market transactions on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules according to Table A, with restriction to point 8.

Table A

Fee (%)	Gross provision for PLN 1 million traded
0,004%	PLN 40

2. The Company prepares for Market Maker a transaction report (Report) with transactions concluded with Institutional Investors transactions on the basis of the provisions referred to in Article 27a and 27b of the general part of the Rules in given calendar month and the amount of resulting gross Commission. The Company provides the Market Maker with the Report right after the end of the month.
3. The amount of the Commission is gross if there is VAT due.
4. In case of Market Makers for whom the Company issues invoices in Euro, the Commission in the Report will be calculated into euro at the average exchange rate for the Euro published by the National Bank of Poland on the last business day in a given calendar month increased by 2%, with the restriction that the Commission on the request of Market Maker may be calculated in PLN without converting its equivalent. If on a given business day, no average exchange rate for a foreign currency was announced, for conversion purposes, the last average exchange rate for that currency announced by the National Bank of Poland will be applied.
5. In case of transactions concluded in Traded Securities denominated in foreign currency, the Company converts the value of transactions concluded by the Participant into zlotys according to the average exchange rate published by the National Bank of Poland on the last business day in a given calendar month. If on a given business day, no average exchange rate for a foreign currency was announced, for conversion purposes, the last average exchange rate for that currency announced by the National Bank of Poland will be applied.
6. As for the term related to execution of the service one assumes date of receipt of the Report by Market Maker, which constitutes the base for issuance of an invoice for the Company.
7. In order to make use of the right mentioned in point 1, the Market Maker is obliged to issue an invoice for amount indicated in the Report no later than 15 days from the end of the calendar month, in which the Report was received. The Company accepts issuing and delivering the invoice in the electronic form at the address: faktury@bondspot.pl.
8. The entitlement for the Commission, mentioned in point 1, for the particular calendar month ceases if the Market Maker has not delivered to the Company the invoice issued in accordance to provisions from point 7, within final deadline of 30 days from the end of calendar month, in which the Report was received, however not later than 2 months from the end of calendar month, for which the Commission is calculated.
9. The Company will pay the Commission within 30 days of the receipt of the invoice to the bank account indicated by the Market Maker with restriction to point 10. The day of the payment is the day of debiting the Company's bank account.
10. In case the Market Maker is delayed with payment of fees mentioned in Annex P, the Company restricts the right to deduct those fees from the Commission payable to a given Market Maker with no need to individual acceptance by a Market Maker.

ANNEX S – Best Market Practices

1. GENERAL

- 1) The Participants undertake to comply with the rules of proper functioning of the Market and to exercise due diligence and conscientiousness towards other Participants and to respect fair competition rules.
- 2) The Participants undertake to refrain from using techniques and procedures which could mislead other Participants as to their intentions.
- 3) Participants are required to:
 - a) act honestly and reliably, respecting legitimate interests of counterparties and the best interests of the market of Traded Securities and in accordance with the Market Rules,
 - b) cooperate in promoting best market practices,
 - c) cooperate in eliminating practices that hinder the development of the market of Traded Securities, and specifically actions that are unreliable or contrary to the best market practices,
 - d) ensure that dealer teams are composed of people with appropriate professional qualifications and integrity,
 - e) have resources and procedures necessary for efficient implementation and monitoring of the Participant's actions related to Traded Securities.

2. MARKET PRACTICES

- 1) The best market practices will be considered to have been violated in particular in the following cases:
 - a) non-reporting to the Company any justified suspicions that the best market practices have been violated in the event that the Participant is an injured party or has knowledge that any other Participant has violated the best market practices,
 - b) disseminating information about suspected violations of the best market practices which could be detrimental to the interests and reputation of the Participants or the Market prior to the official statement of the Market Committee,
 - c) taking actions that could reasonably appear to be actions leading to the distortion of the real situation on the market with a view to achieving favourable transaction conditions, including in particular:
 - i. submitting Proposals that cause a price shift (including prices in Proposals submitted using tools for automating the process of submitting Proposals) and at the same time submitting opposite of Proposals or Applications (crossed market),
 - ii. submitting Proposals that cause a price shift (also using tools for automating the process of submitting Proposals), and then submitting opposite of Proposals or Applications within a period that makes it impossible for other Participants to adapt their Proposals following the removal of the Proposal causing the market shift;
 - d) no permanent supervision over the tools for automating the process of submitting Proposals which generates Proposals with prices that could cause a significant deviation from the market rate,
 - e) operating on the Market using access data of another Participant's representative,
 - f) preventing any third parties from accessing online the order template and parameters of transactions conducted on the Market,
 - g) disclosing information about counterparties to the transaction to any third parties,
 - h) not making efforts aimed at timely clearing of transactions conducted on the Market,

- i) not cancelling transactions conducted on the Market at non-market prices, and specifically their reversal outside the Market.
- 2) The Participants are required to accurately analyse and explain all and any situations related to transactions conducted on the Market if they are contacted by a counterparty to a given transaction.

Annex T – Specific terms and conditions of cooperation on digital operational resilience (DORA)

§ 1.

Whenever Annex T to the Market Rules refers to:

- 1) DORA Annex – it means this Annex T,
- 2) Business Day – it means a day other than a Saturday and other than a public holiday,
- 3) DORA - it means Regulation (EU) 2022/2554 of the European Parliament and of the Council of 14 December 2022 on digital operational resilience for the financial sector and amending Regulations (EC) No 1060/2009, (EU) No 648/2012, (EU) No 600/2014, (EU) No 909/2014 and (EU) 2016/1011 together with implementing acts,
- 4) Critical or Important Function – it means a function, the disruption of which would materially impair the financial performance of a Participant, or the soundness or continuity of its services and activities, or the discontinued, defective or failed performance of that function would materially impair the continuing compliance of a Participant with the conditions and obligations of its authorisation, or with its other obligations under applicable financial services law,
- 5) ICT-related Incident – it means a single event or a series of linked events unplanned by the Company that compromises the security of the network and information systems, and have an adverse impact on the availability, authenticity, integrity or confidentiality of data, or on the services provided by a Participant based on its activity on the Market,
- 6) Subcontract – it means a contract between the Company and a Subcontractor under which the Company subcontracts the Subcontractor to provide ICT Services to Participants,
- 7) ICT Services – it means ICT services within the meaning of DORA, i.e., digital and data services provided through ICT systems to one or more internal or external users on an ongoing basis, including hardware as a service and hardware services which includes the provision of technical support via software or firmware updates by the hardware provider, excluding traditional analogue telephone services,
- 8) Subcontractor – it means an entrepreneur providing ICT Services on request of the Company or its subcontractor in the same supply chain of ICT Services to the Company,
- 9) ICT Risk - it means any reasonably identifiable circumstance in relation to the use of network and information systems which, if materialised, may compromise the security of the network and information systems, of any technology dependent tool or process, of operations and processes, or of the provision of services by producing adverse effects in the digital or physical environment,

10) TLPT – it means threat-led penetration testing.

§ 2.

1. The subject matter of the DORA Annex is to supplement the provisions of the Market Rules in order to ensure that the activities carried out by the Company and Participants comply with the provisions of DORA.
2. The DORA Annex relates to the ICT Services provided by the Company to the extent of operating the Market under the Market Rules and applicable laws.
3. The provisions of the DORA Annex are set out by the Company on the assumption that the ICT Services to the extent of operating the Market support or may support the Critical or Important Functions of Participants.

§ 3.

1. In providing ICT Services to Participants, the Company may use services provided by Subcontractors under Subcontracts on terms and conditions set out in applicable laws.
2. The Company shall, no later than 14 Business Days prior to entering into a Subcontract, make available to Participants information on the ICT Services to be provided by the Subcontractor which support Critical or Important Functions.
3. The information referred to in sub-paragraph 2 should include:
 - 1) the Subcontractor's identification details,
 - 2) the scope of services to be provided by the Subcontractor under the Subcontract,
 - 3) indication of the nature of the data to which the Subcontractor will have access,
4. The Company shall supervise the proper performance of the Subcontract by the Subcontractor. In particular, the Company shall ensure that the manner in which the Subcontract is performed does not lead to a breach of obligations under the Market Rules and obligations under applicable laws, including DORA.
5. The Company represents that it has the appropriate skills, expertise, financial, human and technical resources and applies appropriate information security standards and has an adequate organisational structure, including for risk management and internal control, reporting and responding to ICT-related Incidents, to effectively monitor and supervise the Subcontractor and the ICT Service subcontracted to the Subcontractor.
6. When using Subcontractors for ICT Services supporting Critical or Important Functions, notwithstanding the obligations set out above, the Company shall:
 - 1) monitor all ICT Services subcontracted to Subcontractors which support a Critical or Important Function to ensure the continued fulfilment of its contractual obligations to Participants;

- 2) carry out a risk assessment, including ICT Risk, concerning the location of the potential Subcontractor and its parent entity and the location from which the ICT Service supporting a Critical or Important Function is provided. The result of the risk assessment shall be provided to a Participant upon any request, but not more frequently than once per year, within 14 Business Days of receipt of such request from the Participant;
 - 3) ensure that the Subcontractor only processes and stores data at the locations provided for in the Subcontract and provides services respecting the data rights of Participants, the Company, and third parties;
 - 4) set out the Subcontractor's monitoring and reporting obligations to the Company, covering at least:
 - a) the Subcontractor's obligation to provide all documents and information necessary for the sound management of ICT Risk by the Company;
 - b) the Company's inspection rights over the Subcontractor appropriate to the scope of the subcontracted services;
 - c) the Subcontractor's obligation to provide, as a minimum, reports on ICT-related Incidents and reports on ICT security and business continuity measures and tests;
 - 5) ensure the continued provision of ICT Services which support Critical or Important Functions, even in the event that the Subcontractor fails to meet agreed service levels or other obligations under the Subcontract;
 - 6) ensure that the Subcontractor has in place business continuity plans and ICT-related Incident response plans covering the ICT Services which support Critical or Important Functions provided by the Subcontractor and that the provision of the ICT Services which support Critical or Important Functions is based on agreed levels of those ICT Services;
 - 7) ensure that the Subcontractor complies with ICT security standards and, where applicable, other relevant security standards that may arise under relevant legislation;
 - 8) ensure that the Subcontractor grants the Company and KNF or other competent supervisory authorities the same audit, information, and access rights as those granted to Participants in the Market Rules.
7. The Company shall ensure that Participants are able to monitor the terms and conditions of the further outsourcing of ICT Services which support Critical or Important Functions and monitor the provision of ICT Services which support Critical or Important Functions.
 8. In the event of any material amendment to the Subcontract relating to the provision of ICT Services which support Critical or Important Functions, the Company shall promptly notify Participants of such amendment prior to implementation.
 9. Participants shall, within 14 Business Days of receipt of the notification, conduct an internal assessment of the impact of such amendment on the risks to which they are or may be

exposed as a result of such amendment and shall inform the Company of the results of the assessment.

10. If, as a result of the assessment referred to above, a Participant is of the opinion that the amendments to the Subcontract expose the Participant to risks associated with the use of contractors and subcontractors which exceed the Participant's risk appetite in this respect, the Participant may object and request necessary amendments to the Subcontract.
11. If no objection referred to in sub-paragraph 10 is raised within the time limit set in sub-paragraph 9, the amendment to the Subcontract shall be deemed approved.
12. The Company may make material amendments to the Subcontract even if a Participant raises the objection as referred to in this paragraph if such amendments are required:
 - 1) according to the laws, a decision of a competent supervisory authority or a court judgment,
 - 2) to protect IT security,
 - 3) to ensure continuous provision of ICT Services which support Critical or Important Functions,
 - 4) due to inability or serious limitation of the ability to implement any solution other than the planned amendment.
13. The Company may make material amendments to the Subcontract even if a Participant raises the objection as referred to in this paragraph where the majority of Participants raise no objection to the planned amendment to the Subcontract.

§ 4.

1. The Company shall provide the ICT Services subject to the service levels and the detailed SLA (Service Level Agreement) parameters set by the Company according to sub-paragraph 2.
2. The service levels and the detailed SLA parameters are set out in Annex T1.
3. Participants may independently monitor the availability of the ICT Services and the parameters referred to in this paragraph at their own expense.
4. Notwithstanding any other rights of Participants, if the Company fails to meet the service levels referred to in this paragraph, the Company shall enable appropriate remedial actions to be taken without delay.

§ 5.

1. The Company represents that it has appropriate processes and procedures in place for the management of ICT-related Incidents and has adequate organisational and technological resources to monitor and handle ICT-related Incidents.
2. The Company shall inform Participants promptly, no later than the next Business Day after the Company becomes aware of an ICT-related Incident affecting the ICT Services provided by Company (including using a Subcontractor) to Participants, of:
 - 1) the occurrence of the ICT-related Incident, its nature and any relevant circumstances relating to the ICT-related Incident,
 - 2) the remedies applied and the investigations undertaken, as referred to in sub-paragraph 3 below, including the outcome of those remedies and investigations undertaken,
 - 3) the possible causes of the ICT-related Incident, including any irregularities in the performance of the Market Rules identified by the Company.
3. In the event of an ICT-related Incident, the Company shall cooperate with Participants free of charge in the management of the ICT-related Incident and, in particular, provide Participants with all information necessary to remedy the ICT-related Incident and minimise the damage caused. In any event, the Company shall take all necessary remedial measures to minimise the damage caused by the ICT-related Incident and to limit the impact of the ICT-related Incident on the operations of the Company and Participants to the extent of the activity on the Market.

§ 6.

1. The Company shall ensure that the functions and ICT Services are performed and that the processing (including storage) of data related to the performance of the Market Rules only takes place (which shall also apply to any subcontracting) exclusively in the European Union.
2. The Company shall notify Participants of any intended change of the location referred to in sub-paragraph 1 no later than 14 Business Days prior to the change.
3. The Company shall apply technical measures and organisational solutions to ensure a high standard of availability, authenticity, integrity, and confidentiality in connection with the protection of data, including personal data. The minimum scope of technical measures and organisational solutions which the Company shall implement is set out in Annex T2.
4. The Company shall have in place adequate contingency plans related to its operations and test them at least once per year. The Company shall implement ICT security measures, tools, and policies which ensure the secure provision of services by the Company in accordance with the applicable regulatory framework.

5. Participants may request the Company to communicate the results of the tests referred to in sub-paragraph 4 above. The request shall be communicated to the Company in writing and the Company shall communicate the results of the tests to the email address provided by the Participant within 14 Business Days of receipt of the request.

§ 7.

1. The Company shall participate in the TLPT organised by Participants and cooperate fully in the TLPT with Participants and other entities involved in the TLPT, including, where necessary, with KNF or other supervisory authorities. The TLPT shall be carried out in accordance with Participants' testing programme and the requirements set by KNF or other Participant supervisory authority.
2. If the Company's participation in the TLPT affects the quality or security of the services provided by the Company or the confidentiality of data related to such services, the Company may enter into contractual arrangements with an external tester, for the purpose of conducting a pooled TLPT involving several financial entities (pooled testing) to which the Company provides ICT Services.
3. The Company shall inform Participants of its intention to use a pooled TLPT well in advance. If, in the opinion of a Participant, there are no prerequisites to use a pooled TLPT or if there are important reasons for the Company's direct participation in the TLPT organised by a Participant, the Company and the Participant shall negotiate in good faith to agree on the terms of the Participant's participation in the TLPT.

§ 8.

1. Participants may conduct ICT security awareness programmes and digital operational resilience training in which the Participants shall provide, to the extent the Participants considers appropriate, access for the Company's personnel participating in the provision of the ICT Service. The Company shall ensure that its personnel participating in the provision of the ICT Service are ready to participate in such programmes or training up to a total of [4 hours] in a calendar year, and within such timeframe the Company shall not be entitled to claim reimbursement for such participation and the Participants shall provide such participation free of charge.
2. Participants shall inform the Company of a programme or training referred to in sub-paragraph 1 above 30 Business Days prior to implementation.

§ 9.

1. The Company shall cooperate fully with KNF or other competent supervisory authorities and with their designees. In particular, the Company shall ensure that KNF and such

authorities are able to perform their supervisory functions in accordance with the relevant laws, including DORA.

2. Participants may monitor the Company's digital operational resilience testing performance on an ongoing basis, which includes an unrestricted right of access, inspection, and audit by Participants or a designated third party and by KNF and the right to make copies of the relevant documentation on site, if they are critical to the Company's operations, in relation to the ICT Services provided to the Participant by the Company which support Critical or Important Functions.
3. Where a Participant's exercise of the rights to ongoing monitoring of performance referred to in sub-paragraph 2 may infringe on the rights of other Participants or clients of the Company, the Participant's rights referred to in sub-paragraph 2 shall be exercised through a third party appointed by the Company.
4. The Company shall cooperate fully during on-site inspections and audits carried out by KNF, a Participant or an appointed third party.
5. The Company and the Participants shall provide each other with details of the scope and frequency of, and the procedures to be followed for, such inspections and audits.
6. In the case referred to in sub-paragraph 3, the Company shall provide the Participant with details of the scope and frequency of inspections and audits carried out by a third party and, after an inspection or audit, provide a summary of the results of the inspection or audit.

§ 10.

1. The Company shall in particular inform Participants of any change that may have a material impact on the Company's ability to effectively perform the ICT Services which support Critical or Important Functions while maintaining agreed service levels; the change shall be communicated by the Company by email immediately but no later than 14 Business Days prior to implementation.
2. The Company shall communicate the information referred to in sub-paragraph 1 above to Participants by email.
3. The Company shall prepare and submit to Participants annual reports on the provision of the ICT Services.
4. The reports referred to in sub-paragraph 3 above shall be submitted to Participants within 30 Business Days after the end of each calendar year.
5. The Company shall submit the information referred to in sub-paragraph 3 above to Participants by email.

§ 11.

1. Notwithstanding anything to the contrary in the Market Rules, Participants may terminate activity on the Market with a one-month notice in the circumstances referred to in Article 28(7) of DORA and if the Participant is obliged, by a decision issued by KNF or any other authority that supervises the operations of the Participant, to terminate activity on the Market in whole or in part, including in the case referred to in Article 42(6) of DORA.
2. Notwithstanding sub-paragraph 1 and anything to the contrary in the Market Rules, Participants may terminate activity on the Market with a notice in accordance with the expectations of KNF, which have been expressed publicly (e.g. in the form of guidelines, recommendations, announcement, position paper, letter of the supervisory authority) or individually to the Participant (e.g. in the form of an administrative decision).
3. Without prejudice to the Company's other obligations under the Market Rules or its obligations under the law, in the event of termination of a Participant's activity on the Market for the reasons set out in sub-paragraph 1, and in the event of the Company's bankruptcy or liquidation or the Company's termination of the operation of the Market, the Company shall ensure the Participants' access, recovery, and return of all data, including personal data, processed by the Company in the operation of the Market, subject to the cases set out in the relevant laws under which the Company is obliged to retain such data and any claims or disputes.
4. The data referred to in sub-paragraph 3 should be provided in the format and by the deadline agreed by the Company and the Participant, and if the Company provides the possibility for the Participant to recover and receive the data through its own efforts, this shall take place no later than 7 days from the date of fulfilment of the condition referred to in the first sentence and this possibility should be made available for a period of no less than 30 days.
5. In the case referred to in sub-paragraph 4 above, the Company and the Participant shall co-operate in a concerted manner to ensure the continuity of the provision of ICT Services and the Company shall in particular not impede in any way the transfer of the processes of performing ICT Services and data to the Participant or to entities designated by the Participant and shall cooperate to the extent necessary with such entities to effectively perform such transfer.
6. In order to reduce the risk of disruption to Participants or to ensure an effective resolution, and to enable Participants to migrate to another external provider of ICT Services, the Company shall provide the ICT Services to the extent allowed by law and the Market Rules or provide the relevant functions until the date that the Participant terminates activity on the Market.

1. The Company and the Participants shall keep all confidential information as defined in subparagraph 2 confidential.
2. Confidential information shall include, in particular, all commercial, organisational, technological, legal, financial information and documents, information containing personal data and concerning methods of securing personal data, as well as business concepts, marketing strategies, business development plans, know-how, business strategies, as well as other information of economic value, budgets and accounting, reports required by law, intellectual property, licence fees, client databases and details of contracts concluded with clients, as well as information about employees and associates of the disclosing party, which is not publicly known and which came into the possession of the receiving party intentionally or accidentally in connection with the cooperation of the parties under the Market Rules, regardless of the manner or form in which the information was obtained or how it was expressed (including in oral, written, documentary, electronic form or recorded on any medium, in information systems, on servers), regardless of the degree of elaboration of the information and regardless of the source of the information and whether the information was clearly marked as confidential.
3. The following information shall not be confidential information:
 - 1) information which is publicly known and, in particular, has been made public by the disclosing party or published in the press or other mass media,
 - 2) information which has, in connection with the performance of legal obligations, been disclosed by the disclosing party in a manner that allows public access;
 - 3) information which was known to the receiving party prior to its disclosure in connection with the performance of the Market Rules, provided that this shall not apply to information which came into the possession of the receiving party as a result of a breach of its obligations under the Market Rules or good conduct,
 - 4) information with respect to which the disclosing party declares in writing that it does not consider it to be confidential information.
4. The receiving party shall be exempt from the obligation to keep confidential information confidential where the obligation to disclose such information arises from mandatory laws. In any such case, prior to disclosure, the receiving party shall immediately inform the disclosing party of the obligation to disclose the confidential information and indicate the form and purpose of the disclosure, unless such communication is prohibited under mandatory laws. Should prior notification to the disclosing party not be possible due to the circumstances of the case, the receiving party shall notify the disclosing party as soon as the circumstances preventing notification cease to exist.
5. The receiving party shall:

- 1) keep the disclosing party's confidential information confidential and not disclose confidential information to third parties without the disclosing party's consent given in writing on pain of invalidity,
 - 2) apply appropriate measures to protect confidential information from disclosure to unauthorised third parties,
 - 3) use confidential information for the sole purpose of performing the Market Rules,
 - 4) not copy, use, reproduce or distribute the content of confidential information and documents containing confidential information without the prior consent of the disclosing party given in writing on pain of invalidity,
 - 5) disclose confidential information only to the persons it uses or hires to perform the Market Rules, for the purpose and to the extent necessary for their performance.
6. The receiving party shall limit access to confidential information to only those employees and associates who are directly involved in the cooperation between the parties under the Market Rules. The receiving party shall, before disclosing confidential information to its employees or associates, inform them of the confidential nature of the information, oblige them to maintain its confidentiality, and receive from them a confidentiality declaration. The receiving party shall be directly liable for any damage caused to the disclosing party as a result of the disclosure of confidential information by the aforementioned employees or associates.

Annex T1. SLA parameters

No.	Parameter name	Parameter value	Comments
1.	Availability of the System on Trading Days during order processing hours	99% per month	
2.	Technical breaks	on days other than Trading Days	
4.	Trading Hours	Trading Days, from 8:30 to 17:00	
5.	Request acceptance confirmation time	5 minutes	Time for Trading Days during Trading Hours
6.	RPO (Recovery Point Objective) – maximum loss of transaction data	Close to 0	Time for Trading Days during Trading Hours
7.	RTO (Recovery Time Objective) – System recovery time in the event of an incident or failure	up to 2 hours	Time for Trading Days during Trading Hours
8.	Other request processing time	without undue delay from the confirmation of acceptance	The request processing time depends on the type of request and the decision of BondSpot

Annex T2. Description of the technical measures and organisational solutions used in the Company

In order to ensure a high ICT security standard of availability, authenticity, integrity and confidentiality in connection with the protection of data, including personal data, the following technical measures and organisational solutions are applied in the Company.

I. The technical measures include the following:

Area	Attribute	Requirement	Met (Yes/No/Not applicable)
ICT risk management	Availability	Regular testing of ICT systems and processes, including penetration testing and attack simulations, to ensure continued service availability.	Yes
	Authenticity	Implementation of user authentication mechanisms, such as multifactor authentication, to ensure that only authorised users have access to systems.	Yes
	Integrity	The use of technologies such as digital signatures and checksums to ensure that data has not been altered in an unauthorised manner.	Not applicable
	Confidentiality	Encryption of data at rest and in transit to protect it from unauthorised access.	Not applicable
Monitoring and reporting incidents	Availability	Systematic monitoring of systems to detect and respond to incidents, helping to quickly restore service availability after an incident.	Yes
	Authenticity	Logging and monitoring user activities on the system to ensure that all activities are authorised and comply with security policies.	Yes
	Integrity	Monitoring data and system integrity to detect and respond to any unauthorised changes.	Yes
	Confidentiality	Reporting data confidentiality incidents to the competent authorities and taking corrective action.	Yes
Protection measures	Availability	Regular updates to software and systems to ensure they are resilient to known threats and vulnerabilities.	Yes
	Authenticity	Implementation of access control mechanisms to ensure that only authorised users have access to data and systems.	Yes
	Integrity	Using technologies such as intrusion detection systems (IDS) and intrusion prevention systems (IPS) to protect the integrity of systems.	Yes

	Confidentiality	Encryption of personal data and other sensitive information to protect it from unauthorised access.	Yes
Personal data protection	Availability	Implementation of mechanisms to ensure the continued availability of personal data, such as backup and disaster recovery systems.	Yes
	Authenticity	Authenticating users before accessing personal data to ensure that only authorised persons have access.	Yes
	Integrity	Regular checks of the integrity of personal data to ensure that it has not been altered in an unauthorised manner.	Not applicable
	Confidentiality	Implementation of technical measures such as pseudonymisation and encryption of personal data to protect it from unauthorised access.	Yes

II. The organisational solutions include the following:

Area	Attribute	Requirement	Met (Yes/No/Not applicable)
ICT provider management	Availability	Assessing and monitoring risks associated with ICT third-party service providers to ensure continued availability of services.	Yes
	Authenticity	Verifying the identity and authenticity of ICT service providers before engaging with them.	Yes
	Integrity	Regular audits and inspections of ICT service providers to ensure that their operations comply with security policies.	Yes
	Confidentiality	Implementation of confidentiality agreements with ICT service providers to protect data from unauthorised access.	Yes
Cooperation and information exchange	Availability	Liaising with competent authorities and sharing information on threats and incidents to ensure continued availability of services.	Yes
	Authenticity	Verification of the authenticity of information exchanged with others.	Yes
	Integrity	Ensuring the integrity of information exchanged with others so that it is not altered in an unauthorised manner.	Yes
	Confidentiality	Implementation of security measures for information exchanged with others to protect it from unauthorised access.	Yes
Audit and inspection	Availability	Conducting regular audits and inspections of ICT systems to ensure continued availability of services.	Yes
	Authenticity	Verification of the authenticity of user and system activities during audits.	Yes
	Integrity	Checking the integrity of systems and data during audits to detect any unauthorised changes.	Yes
	Confidentiality	Protecting data and information during audits to ensure confidentiality.	Yes
Training and awareness	Availability	Organising staff training on cyber security to ensure continued availability of services.	Yes
	Authenticity	Training staff on authentication and authorisation to ensure that only authorised users have access to systems.	Yes
	Integrity	Educating staff on the importance of data and system integrity.	Yes
	Confidentiality	Training staff in the protection of personal data and other sensitive information to ensure its confidentiality.	Yes
Principle of data minimisation	Availability	Processing only the data necessary to fulfil the purposes of the processing to ensure the continued availability of services.	Yes
	Authenticity	Verification of the authenticity of data before processing.	Yes
	Integrity	Ensuring the integrity of data processed in accordance with the principle of data minimisation.	Yes
	Confidentiality	Protection of data processed according to the principle of data minimisation to ensure confidentiality.	Yes

III. The solutions for contingency plan implementation and testing and ICT security include the following:

Area	Attribute	Requirement	Met (Yes/No/Not applicable)
CONTINGENCY PLANS AND TESTING			
Development of Contingency Plans	Availability	Contingency plans must include procedures to ensure continuity of ICT services in the event of a disaster. They should include detailed instructions for restoring services as soon as possible.	Yes
	Authenticity	Plans must include mechanisms to verify the identity of users and systems during a disaster to prevent unauthorised access.	Yes
	Integrity	Procedures must ensure that data is not altered in an unauthorised manner during the restoration process.	Yes
	Confidentiality	Plans must include measures to protect data from unauthorised access during the disaster and recovery.	Yes
Regular Testing of Contingency Plans	Availability	Testing of contingency plans at least once a year to ensure that procedures are effective and up-to-date.	Yes
	Authenticity	Tests must include user and system identity verification scenarios to ensure that authorisation mechanisms work correctly.	Yes
	Integrity	Tests must verify that data is protected from unauthorised changes during a disaster.	Yes
	Confidentiality	Tests must include scenarios to protect data from unauthorised access.	Yes
ICT SECURITY MEASURES			
Backup and Recovery Systems	Availability	Regular backups of data and systems to ensure that they can be quickly restored in the event of a disaster.	Yes
	Authenticity	Verification of the integrity of backups to ensure that data has not been altered.	Yes
	Integrity	Regular testing of data recovery procedures to ensure that data can be restored without loss of integrity.	Yes
	Confidentiality	Encryption of backups to protect data from unauthorised access.	Yes
Multifactor Authentication (MFA)	Availability	Implementation of MFA for all critical systems and applications to ensure continued access for authorised users only.	Not applicable
	Authenticity	Verification of users' identities using at least two independent authentication methods.	Not applicable
	Integrity	Ensuring that the integrity of data is not affected by the authentication process.	Yes
	Confidentiality	Protecting credentials from unauthorised access.	Yes
Intrusion Detection and Prevention Systems (IDS/IPS)	Availability	Real-time monitoring of network traffic to quickly detect and respond to potential threats.	Yes
	Authenticity	Verification of network traffic sources to prevent unauthorised access.	Yes
	Integrity	Protecting systems from unauthorised changes by detecting and blocking intrusion attempts.	Yes
	Confidentiality	Monitoring and protecting data transmitted over the network from unauthorised access.	Yes
Data Encryption	Availability	Encryption of data both at rest and in transit to ensure it is only available to authorised users.	Yes
	Authenticity	Verification of the integrity of encrypted data to ensure that it has not been altered.	Yes

	Integrity	Use of encryption algorithms that ensure data integrity.	Yes
	Confidentiality	Protecting data from unauthorised access by using strong encryption algorithms. Managing encryption keys in a way that protects data from unauthorised access.	Yes
ICT SECURITY TOOLS			
System Availability Monitoring Tools	Availability	Real-time monitoring of the availability of ICT systems and services to quickly detect and respond to failures.	Yes
	Authenticity	Verification of the authenticity of monitored data sources.	Yes
	Integrity	Ensuring that monitored data is accurate and unaltered.	Yes
	Confidentiality	Protection of monitored data from unauthorised access.	Yes
Identity and Access Management Tools (IAM)	Availability	Managing access to systems and data to ensure that only authorised users have access.	Yes
	Authenticity	Verification of users' identity before granting access.	Yes
	Integrity	Ensuring that access permissions comply with security policies.	Yes
	Confidentiality	Protecting credentials and access permissions from unauthorised access.	Yes
